

Learning Metrics Task Force 2.0

Prof. Dr. Abdul Hameed
Dean
School of Social Sciences and Humanities
University of Management and Technology
C-II, Johar Town, Lahore Pakistan

April 10, 2015

Dear Prof. Dr. Abdul Hameed,

We are pleased to announce that the School of Social Sciences & Humanities, University of Management and Technology has been accepted as new member of the Learning Metrics Task Force 2.0. Based on your application, we feel that your understanding of LMTF and its recommendations, as well as your organization's demonstrated commitment to improving learning will be of immense value for collaboratively achieving the goals of the Task Force as it enters its final year.

The Learning Metrics Task Force 2.0 reflects the collective efforts of governments, organizations and individuals working together toward equitable learning and education for all through improved learning assessment systems and use of data. LMTF 2.0's structure includes a secretariat, small advisory committee, an expanded group of member organizations, and various working groups convened by partner organizations.

As a LMTF 2.0 member, you will be invited to participate in regular virtual briefings and one in-person meeting a year. During these meetings Task Force members will convene, provide regular updates and share progress to date. In addition to meetings, you may be invited to participate in working groups. A partner update will be shared quarterly, and we ask members to engage and contribute to the best of their ability, as the Task Force is a highly consultative network that relies on active participation to ensure results are achieved.

Again, welcome to the Task Force and we look forward to working with you.

Best,

Rebecca Winthrop
Senior Fellow and Director
