Following is an e-a-s-y How To for accessing library digital resources.

1- Open your internet browser. You can use any browser which you normally use to access internet

2- Type the address **https://dr.umt.edu.pk/library**.

![Image of address typed in browser]

**Note:** Digital Resources are secure site therefore you must start your address with **https://**

3- If you are using Internet Explorer following window will appear. Click on “Yes”

![Security Alert window in Internet Explorer]

Or if you are using Google Chrome following window will appear. Click on “Proceed anyway”
The site's security certificate is not trusted!

You attempted to reach dr.umt.edu.pk, but the server presented a certificate issued trusted by your computer's operating system. This may mean that the server has gen credentials, which Google Chrome cannot rely on for identity information, or an attack intercept your communications.

You should not proceed, especially if you have never seen this warning before for this

4- Type your username and password in the required fields. User name used here is your domain user name (Employee code or Participant ID) which is used to access your computer in the campus

5- A Message window appears with a message “Library Group” Click Continue to close the window:
6- List of all available resources appears, you can click any link to access corresponding resource:
