Top 10 in South Asia
Our Vision...Learning

It defines our existence, inspires all stakeholders associated with us, creates a powerful momentum inside, and responds to the challenges outside. It continues to evolve as present captures new realities and foresight unloos new possibilities, all in an incessant attempt to help individuals and organizations discover their God-given potentials to achieve Ultimate Success actualizing the highest standards of efficiency, effectiveness, excellence, equity, trustship and sustainable development of global human society.

Our Mission...Leading

We aspire to become a learning institution and evolve as the leading community for the purpose of integrated development of the society by actualizing strategic partnership with stakeholders, harnessing leadership, generating useful knowledge, fostering enduring values, and projecting sustainable technologies and practices.
The Knowledge and Cultural Metropolis of Pakistan

With a rich history that dates back to thousands of years, Lahore is Pakistan's second largest city, with a population of approximately 10 million people, and the capital of the Punjab province. Lahore served as the capital of the Ghorids and the Ghurids in the 12th and 13th centuries. However, it was during the Mughal Rule (1526-1752) that Lahore reached the peak of its glory. The Mughals gave Lahore some of the finest architectural monuments that draw thousands of visitors to this day. Lahore was also the seat of power during the Sikh and British rule.

Lahore is the city of poets, scholars, artists, journalists, sportsmen and the center of the film industry. It is also known as the city of colleges with a number of famous locacies, universities and schools. As the commercial and technological hub of the country, Lahore is the second biggest industrial base of the country. Lahore is poised to become the nodal point for the Global Knowledge Economy through the Lahore Knowledge Park — a standalone entity conforming to international standards that will create a space for collaboration between academia, government and industry.

STUDY IN LAHORE WITH UMT
UMT is a project of Institute of Leadership and Management (ILM) Trust. ILM was established in 1990 by leading educationalists, professionals, and industrialists with an arm to enhance the organizational and individual effectiveness. Guided by the noble mission of helping others in achieving their limitless human potential to its fullest shape, ILM sought to respond to the challenges of information-based economy, globalization, and ever increasing complexity.

UMT – now an independent, not-for-profit, private institution of higher learning – received her degree-granting charter first as the Institute of Management and Technology (UMT) in 2002 through an Act of the Assembly of the Punjab. Later, on 16 June 2004, UMT became University of Management and Technology through the passing of a similar Act by the Punjab Assembly. UMT is recognized by the Higher Education Commission (HEC) of Pakistan as a UMT category (highest rank) university. It is also the first in the Punjab, amongst medium-sized universities in the general category.
The Legend Leads

In 2015, UMT celebrated 25 years of ‘Emergence with Eminence’ in recognition of its contribution to the promotion of higher education in Pakistan. Over the years, UMT has become renowned for its highly rated faculty members who are graduates of top universities of the world with vast experience in the corporate and business sector. That is why our graduates are hired by leading national and international organizations on account of the market driven and practical education imparted to them by our highly qualified faculty members.

UMT has come a long way since its inception. There has been tremendous growth in academic disciplines and infrastructure. In addition to the social sciences programs, UMT has also launched the School of Health Sciences and the School of Engineering. Aviation programs have been launched by UMT in response to market demands. These programs have attracted large number of students and are running successfully. UMT School of Business and Economics (SBE) is the only business school in Pakistan that has SACOS accreditation by the Association of Management Development Institutions in South Asia (AMIDEA), while its business programs have been accredited by National Business Education Accreditation Council (NBEC). SBE is the only business school in Pakistan in academic alliance with SAP, ORACLE and Microsoft Dynamics. This distinguishes SBE as the best school of Pakistan. National Accreditation Council for Teacher Education (NACTE) has accredited teacher education programs of UMT. The courses of study at UMT are designed to develop the skills of students in specific areas that are important for employers. As such, UMT ensures that all academic programs are relevant to real-world business needs and guide students towards a successful future.

This journey of excellence is on to keep our tradition of leading and learning.
Accreditations

Institutional accreditations and memberships determine the extent to which university programs meet the rigorous quality criteria which are required in specialized professional fields. UMT is the best accredited university in the South Asian region. We strongly believe that relevant accreditations are the means through which our programs are benchmarked against best practice.
International Linkages

UMT is striving round the clock to provide the best educational climate to its students by weaving research and practical knowledge together, and aims to give them an edge over other public and private sector universities. That is why UMT has joined hands with over 40 leading international universities, established student and faculty exchange programs, and launched other collaborative measures to enhance the learning experience of its students.
Outstanding Faculty

Our faculty members are the pride of UMT. Drawn from some of the best universities across the globe, they have a distinguished history of service in the world of academia as well as rich industry/corporate experience. With 450+ faculty members, 120+ PhDs and 20:1 student faculty ratio, UMT can rightly lay claim to being one of the few universities in the region that has the most highly qualified and experienced faculty members. UMT faculty holds membership of prestigious international bodies across the world. Our participants are beneficiaries of the insight gained through these memberships as the faculty members transmit knowledge to the students.

Faculty Memberships

[Image showing logos of various academic and professional organizations]
Schools and Institutes

At present, 13 schools and 5 institutes are operating under the umbrella of UMT, offering programs in a wide range of disciplines. Teaching is organized within these academic units that function under the guidelines set forth by the University Authorities. The increase in the number of these academic units testifies to the quality of market driven and innovative degree programs being offered here that meet the requirements of aspiring students.

- School of Business and Economics (SBE)
- School of Systems and Technology (SST)
- School of Social Sciences and Humanities (SSSH)

UMT Centers

UMT centers are working to facilitate academic-industry linkages, provide real world exposure to the UMT participants and faculty, offer excellent learning and placement opportunities, and promote research and consultancy. These centers often invite eminent professionals in various seminars and other events to provide learning and networking opportunities.
Quality Enhancement Cell

91% Awarded to QEC-UMT by QAA-HEC

In 2015, the Quality Enhancement Cell (QEC) of UMT was awarded 91% on the basis of quantitative assessment that is conducted annually by the Quality Assurance Agency (QAA) of HEC, Pakistan. For the last four assessments, UMT has successfully maintained its ranking in W category (85%-100%) which is the highest category that can be awarded to an institution.

Objectives

UMT established the Quality Enhancement Cell (QEC) to serve as an innovative quality center with national and international linkages and facilitate the change activities within UMT. The aim of QEC is to become a facilitator in enhancing the UMT-wide quality of the academic programs as well as effective management of all the internal processes to satisfy various stakeholders including students, faculty, parents, corporate partners and society. QEC also provides informational support for academic policies and contributes towards timely feedback of all the stakeholders.

Quality Enhancement Cell (QEC) is the focal point for facilitation of the implementation of HEC prescribed standards as well as the enhancement of quality initiatives in a continuous manner. It acts as 'catalyst body' to help expedite the quality implementation and attain new standards of excellence for UMT.
Research Culture

Research plays a critical role in the economic and social development of society. As such, universities that focus on academic research help their countries to join the global knowledge society. UMT is committed to the promotion of research culture and actively helps faculty members and students to undertake research ventures in diverse fields. UMT students find themselves immersed in a stimulating and supporting environment among leading academics making cutting-edge discoveries.

In 2015, 178 research papers authored by UMT faculty members and students were published in reputable journals or in proceedings of national and international conferences. This included 93 journal papers and 85 conference papers. Most of the research articles were published in Thomson Reuters, and Scopus.

UMT Journals

- Journal of Islamic Thought and Civilization (JITC) - 9 issues published since 2011
- Journal of Management and Research (JMR) - 4 issues since 2014
- Law and Policy Review (LPR) - 3 issues since 2010
UMT supports its academic programs and research initiatives through a state-of-the-art Library and Learning Resource Center (LLRC). The intrinsic focus of the LLRC is to make available the parameters intellectual baggage required to build specific resources, and pave the way towards attainment of rare-to-be-found scripts, contents and substances for researchers and students. The well-stocked library and Learning Resource Center has over 115,000 books to facilitate learning and research. 70 foreign and local journals, 15 online databases, 330,000 digital resources, 16 annually subscribed foreign journals, 7 special collections and 1 Learning Disability Center. The corporate clients, students and alumni who use the services and resources of the LLRC term it as the treasure-house of knowledge.
Laboratories

UIT is equipped with 50+ science, engineering, and textile laboratories to provide hands-on learning and practical experience to students. The learning is augmented through practical work done in these laboratories. The laboratories are regularly upgraded and expanded to provide a world-class learning experience to our students.
Our Alumni Around the World

Over 15,000 UMT Alumni are working in diverse fields across the continents, creating a leadership heritage that has become the hallmark of our graduates. UMT Alumni are employed in leading positions in major sectors of industry and have maintained strong ties with their alma mater through the UMT Alumni Network. UMT believes in maintaining long-term relationships with its students and this relationship does not end when the courses of study culminate. UMT provides a global support network throughout the life of its alumni.
International Students

UMT has a strong international outlook, welcoming students from 19 countries across the globe who add their perspective to enrich the overall learning experience of all students. UMT Campus is the hub of a thriving multicultural community, engaged in learning in a safe and self-contained campus in the center of Lahore. Studying at UMT means that students are exposed to a myriad mix of beliefs, values and cultural ethics which gives them international exposure and instills respect for diversity.
Diverse Student Body

UMT students are drawn from all the provinces of Pakistan including the remote areas. The UMT Campus truly reflects the diversity within Pakistan as students from Balochistan, Gilgit-Baltistan, FATA, Interior Sind, etc. interact with students from other cosmopolitan areas, thus promoting a spirit of national integration and harmony. UMT’s talented and diverse student body has the intellectual capability and social skills to contribute to the development and progress of Pakistan.
Active Students

We want UMT students to be active, enthusiastic, and high spirited. The concept of student societies and clubs at UMT is all about having fun, getting active, making new friends, building strong bonds, and enhancing or learning new skills. Currently, UMT has different active societies and clubs that cultivate students’ skills in diverse areas.
The University is continuously investing in its campuses to provide even better facilities to support the learning, teaching and social experiences of students.

School of Engineering (SEM) Building
In 2015, the new School of Engineering (SEM) building became operational; it brought all the Engineering disciplines into a purpose-built state-of-the-art facility. The eye-catching airy building provides space for both generic and specialist laboratories, as well as open areas for group work, informal learning and socializing between lectures.

Admin Building
The new administrative building was also completed and became operational in 2015. The building is a self-contained unit which houses all management and statutory offices. Students of all programs now have access to all support services at a single location. Furthermore, the building also houses a bank to facilitate financial matters of students.

Admissions Office
UMT recognizes that the Office of Information and Admissions (OIA) is the first point of contact for potential students and their parents. In order to provide the best facilitation to the visitors of UMT Campus, the OIA Block has been renovated with modern facilities. Our courteous and competent staff members guide potential students and their parents about the various study and career options available to them.

Improving Our Campus

Future Expansion Plans
New multi-school building is under construction to accommodate the rising number of students. The building will have state-of-the-art laboratories and classrooms. This expansion is in keeping with UMT’s commitment to provide the best infrastructure to facilitate learning and research. Once completed, this purpose-built building will facilitate the students and add to the vibrant campus life.
Facilities

UMT believes in offering the best facilities to its students. As such, the UMT Campus offers more than an educational and research environment. Students have access to recreation and leisure as well as state-of-the-art computing and lab facilities, hostel residency for out of station students, and a well maintained and efficient transport service.

Information Processing Center (IPC) at UMT provides state-of-the-art facilities. IPC serves 2000-3000 participants daily. Its standards meet the international requirements of highly advanced IT equipment and services including Intel® Core i7, Intel® Core™ i5 systems, 8 computer classrooms, 3 HP 8050 heavy duty laser printers, 52 Mbps QIR Internet bandwidth and scanners and CD/DVD writers.
**Transport**

UMT provides a reliable and cost-effective transport service to both day scholars and hostel residents. All-conditioned coaches provide shuttle services to the participants at pre-determined routes across the city. The University maintains a fleet of coaches and buses that are available during university hours to transport students and staff members.

---

**Cafeteria**

The UMT Cafeteria provides a relaxing environment to its students where they can enjoy meals and snacks during breaks from their studies. The cafeteria offers high-quality hygienic food at subsidized rates. Menu items cover snacks, juices, meals, barbecue, and much more. Special emphasis is placed on maintaining the highest standards of quality and cleanliness.
Grand Mosque

The UMT management believes that imparting scientific, business and other practical knowledge is not the only part of the mission of a modern university. It is equally important to instill strong moral and ethical values in the students who pass through the doors of our University. Keeping this in view, a Grand Mosque has been built in the university campus. The UMT Grand Mosque caters for the spiritual and holistic development of the students by offering facilities for daily prayers as well as Friday sermons by renowned scholars and speakers.

Hostel

UMT has two separate spacious hostels for male and female participants. The hostels offer independent messing and recreation areas. Pick and drop facility is provided to hostel residents. The hostel life further adds to the already rich learning experience at UMT. The boarders come from diverse social and cultural backgrounds; nevertheless, as part of the community they live like a family. They interact, help, support, encourage, and guide each other and enrich their perspectives.

Students may seek advice from the Office of Information and Admissions at the time of admission in order to secure a place in the UMT hostels. Students may accommodate on “first come first served basis.”
ILM Fund

ILM Fund, a project of ILM Trust, is committed to providing access to higher education for all. We seek to meet the increasing demand of scholarships for which donations are collected and effectively relayed to deserving scholars. ILM Fund helps students to accomplish their aim of acquiring education by easing their financial hardship. Each year, ILM Fund awards financial assistance and scholarships to talented and needy students at University of Management and Technology.

Why Support ILM Fund

- We aspire to transform talented and underprivileged students into leaders of tomorrow.
- All donations with us are secure and are spent on providing financial assistance to those who deserve it.
- We provide education to improve social mobility and bring down disparity for future generations.
- Since its inception, over 1 Billion Rupees worth of scholarships were awarded to underprivileged and exceptionally talented students from various districts of Pakistan.
Scholarships

UMT remains committed to providing quality education to all students irrespective of their social or financial standing. A wide range of scholarships are offered to the bright and talented students who choose to study at UMT. Merit based scholarships are awarded at the time of admission, while the need based financial assistance can be requested during the course of study only in exceptional circumstances. For further details, please visit the Office of the Registrar website: http://umt.edu.pk/org/home.aspx

Career Development

At UMT, we are focused on developing the skills of students to a higher level, making them more attractive to the right kind of employers. UMT has long-standing links with business, industry, public sector and professional organizations. The insights gained from them give us inputs for our courses which adds to the student experience and boosts their employability.

Moreover, a specialized team of dedicated professionals provides information, advice and guidance to the students. Meetings with CEOs, mock interviews and workshops for enhancing resume building skills are regularly organized for the grooming of students. Graduate directories are also sent to top recruiters of the country in order to secure placement of our students.
UMT Sialkot

UMT is the first private sector university to establish HEC approved sub-campus in Sialkot, the city known for the manufacturing and export of items such as surgical and musical instruments, sports goods, leather goods and textile goods. The UMT Sialkot Campus was formally opened on May 2, 2012. The 50-acre campus provides several multimedia classrooms, laboratories, computer labs equipped with state-of-the-art computers, campus wide Wi-Fi internet facility, and well-stocked learning resources. More than 1300 students are currently studying at the Sialkot Campus.
UMT Bureau Office, Ankara, Turkey

University of Management and Technology (UMT) has successfully launched a bureau office in Ankara, Turkey. This breakthrough happened after the significant visit of Dr. Hassan Schah Murad whereby he met with top Turkish leadership to get their support for establishing a world-class university to translate the concept of "Two Countries-One Nation" about Pakistan-Turkey friendship into reality.

Objectives

- To establish linkages with Turkish academic partners
- To establish UMT Sub Campus in Turkey
- To ink MoUs with leading Turkish universities
- To network with UMT Alumni
- To represent UMT among the Turkish people and the Government
- To offer learning and management courses for Turkish organizations
- Marketing and recruitment of students for UMT, Lahore
- Translation of Pakistani books into Turkish language

ILM Group of Colleges

The ILM Colleges Network aims to make quality education available at widely dispersed locations in the country. Established in 2008, ILM Colleges offer a wide range of programs in faculties of Arts, Science, Computer Science and Commerce. Campuses offer value-driven education to the nation’s youth. Highly qualified and experienced faculty is the hallmark of all ILM Colleges.

The Knowledge School Network

The Knowledge School (TKS), a project of ILM Trust, is a country-wide network of comprehensive schools (playgroup to class X). TKS Schools have been set up as an initiative to provide quality education at an affordable fee. Students at The Knowledge Schools are promised not only effective learning in all academic subjects but also personality grooming based on our social and moral values.

200+ TKS branches all over the country
25 New schools per year (average growth rate)
25,000+ Students
13,750 Boys
11,250 Girls
Institute of Knowledge and Leadership, Dubai, UAE

Institute of Knowledge and Leadership (IKL) has emerged on the global map of learning, talent development and executive education as a highly advanced and qualified training platform. IKL is based in Dubai and serves prominent clients from across the MENASA region.

Philosophy

The philosophy of IKL is encompassed around three areas, Growth Excellence, and Leadership which are essential and highly required components for dynamic and competitive sustainable operations of any successful business organization, locally as well as globally.

At IKL, we believe on the growth of individuals as well as organizations, with the best piece of excellence that reflects from each and every act and serves as a transformational catalyst to develop global leaders.
NURTURING TALENT

UMT has always provided real life opportunities to students in order to polish their skills and prepare them to meet the challenges that they will face in their professional lives. Over the years, the University has been able to inculcate practical life skills and enhance their creative abilities for an inspiring future.

In order to promote their talent, UMT provided an opportunity to its students for showcasing their professional photography in this year’s corporate brochure. All the photographs in this brochure have been taken by our talented students.

Ahmad Bin Yousaf, Abdullah Atzal Khan and Asim Mushtaq.
