

ILM Trust

Leading into a better tomorrow

Overview

In 1990, a group of eminent educationists, philanthropists, professionals and industrialists established the ILM Trust to enhance the organizational and individual effectiveness. Today, it stands as a nationally as well as internationally acclaimed symbol of quality education. ILM Trust runs myriad range of projects that complement its overall mission of contributing to the progress of society. From early years schooling to high school, college and university education, an integrated system of quality education is being provided by the educational ventures of ILM Trust; more precisely, from playgroup to PhD, ILM takes cares of all the learning needs of an individual by delivering innovative and market-driven quality education.

University of Management and Technology (UMT)

UMT is a project of Institute of Leadership and Management (ILM) Trust. UMT – now an independent, not-for-profit, private institution of higher learning – received her degree-granting charter first as the Institute of Management and Technology (IMT) in 2002 through an Act of the Assembly of the Punjab. Later, on 16 June 2004, IMT became University of Management and Technology through the passing of a similar Act by the Punjab Assembly.

In 2015, the University of Management and Technology (UMT) celebrated 25 years of 'Emergence with Eminence' in recognition of its contribution to the promotion of higher education in Pakistan. As a premier institution of higher learning in the country, UMT is recognized by the HEC of Pakistan as a 'W4 Category' (highest rank) university. For more than two years, UMT was also at the top as per HEC ranking in General Category (medium-sized) of private sector institutions in the Punjab. At present, 150+ accredited programs are being offered in the 13 Schools and 5 Institutes operating in the University.

Over the years, UMT has become renowned for its highly rated faculty members who are graduates from top universities of the world with vast experience of the corporate and business sector. With 450+ faculty members including 120+ PhDs and 20:1 student faculty ratio, UMT can rightly lay claim to being one of the few universities in the region that has the most highly qualified and experienced faculty members.

UMT is striving round the clock to provide the best educational experience to its students by weaving research and practical knowledge together, and aims to give them an edge over other public and private sector universities. That is why UMT has joined hands with over 40 leading international universities, established student and faculty exchange programs, and launched other collaborative measures to enhance the learning experience of the students. UMT is committed to the promotion of research culture and actively helps faculty members and students to undertake research ventures in diverse fields.

UMT is home to 10,000+ students from 100 districts of Pakistan. Its students are drawn from all the provinces of Pakistan including the remote areas. The UMT Campus truly reflects the diversity within Pakistan as students from Balochistan, Gilgit-Baltistan, FATA, Interior Sind, etc. interact with students from other cosmopolitan areas, thus promoting a spirit of national integration and harmony. UMT's talented and diverse student body has the intellectual capability and social skills to contribute to the development and progress of Pakistan. UMT also has a strong international outlook, welcoming students from 18 countries across the globe; the campus is the hub of a thriving multicultural community, engaged in learning in a safe and self-contained campus in the center of Lahore. So studying at UMT means that students are exposed to a myriad mix of beliefs, values and cultural ethos which gives them international exposure and instills respect for diversity.

UMT Sialkot

UMT is the first private sector university to establish HEC approved sub-campus in Sialkot, the city known for the manufacturing and export of items such as surgical and musical instruments, sports goods, leather goods and textile goods. The UMT Sialkot Campus was formally opened on May 2, 2012. The 20-kanal campus provides several multimedia classrooms, laboratories, computer labs equipped with state-of-the-art computers, campus wide Wi-Fi internet facility, and well-stocked learning resources. More than 1300 students are currently studying at the Sialkot Campus.

Facilities

UMT believes in offering the best facilities to its students. As such, the UMT Campus offers more than an educational and research environment. Students have access to recreation and leisure as well as state-of-the-art computing and lab facilities, hostel residency for out of station students, and a well maintained and efficient transport service.

IPC (Information Processing Center)

Information Processing Center (IPC) at UMT provides state-of-the-art facilities. IPC serves 2000-3000 participants daily. Its standards meet the international requirements of highly advanced IT equipment and services including Intel® Core i7, Intel® Core™ i5 systems, 8 computer classrooms, 3 HP 9050 heavy duty laser printers, 52 Mbps CIR Internet bandwidth and scanners and CD/DVD writers.

Laboratories

UMT is equipped with 50+ science, engineering and textile laboratories to provide hands-on learning and practical experience to students. The learning is augmented through practical work done in these laboratories. The laboratories are regularly upgraded and expanded to provide a world-class learning experience to our students.

Learning Resources

Library and Learning Resource Center

UMT supports its academic programs and research initiatives through a state-of-the-art Library and Learning Resource Center (L&LRC). The intrinsic focus of the L&LRC is to make available the

persistent intellectual linkage required to build specific resources, and pave the way towards attainment of rare to-be-found scripts, contents and substances for researchers and students. The well-stocked Library and Learning Resource Center has over 115,000 books to facilitate learning and research, 70 foreign and local journals, 15 online databases, 300,000 digital resources, 15 annually subscribed foreign journals, 7 special collections and 1 Learning Disability Center. The corporate clients, students and alumni who use the services and resources of the L&LRC term it as the treasure-house of knowledge.

Disability Resource Center (DRC)

LRC is committed to ensuring that the services and programs offered by UMT are accessible to all patrons without discrimination of caste or creed. We believe in an equal opportunity services center and manage to provide free of charge services to special persons, even if they are not University students. Special people can get library membership free of charge and they are welcomed from distant communities too. The University works with patrons on an individual basis to assess their unique accommodation needs.

The Knowledge School Network

The Knowledge School (TKS), a project of ILM Trust, is a country-wide network of comprehensive schools (playgroup to class X). TKS Schools have been set up as an initiative to provide quality education at an affordable fee. Students at The Knowledge Schools are promised not only effective learning in all academic subjects but also personality grooming based on our social and moral values.

200+ TKS Branches

25 New Schools Per Year (Average Growth Rate)

25,000+ Students

13, 750 Boys

11, 250 Girls

ILM College

Every Student Matters

ILM Group of Colleges

The ILM Colleges Network aims to make quality education available at widely dispersed locations in the country. Established in 2008, ILM Colleges offer a wide range of programs in faculties of Arts, Science, Computer Science and Commerce. Its campuses offer value-driven education to the nation's youth. Highly qualified and experienced faculty is the hallmark of all ILM Colleges.

ILM Fund

The rising cost of education deprives many talented but financially weak students to avail educational opportunities. Keeping this in view, ILM Fund was initiated by the ILM Trust to provide world class education to every citizen of Pakistan. We are helping to turn the aspirations of underprivileged students into reality.

ILM Fund is committed to provide access to higher education for all. We seek to meet increasing demand of scholarships for which donations are collected and effectively relayed to deserving scholars. ILM Fund helps students to accomplish their aim of acquiring education by easing their financial hardship. Each year, ILM Fund awards financial assistance and scholarships to talented and needy students at University of Management and Technology.

Why Support ILM Fund

- We aspire to transform talented and underprivileged students into leaders of tomorrow
- All donations with us are secure and are spent on providing financial assistance to those who deserve it
- We provide education to improve social mobility and bring down disparity for future generations
- Since its inception, over 1 Billion Rupees worth of scholarships have been awarded to underprivileged and exceptionally talented students from various districts of Pakistan

1 Billion
Rupees Worth of
Scholarships

A Legacy of Giving

“What I value most at UMT is the quality of education and commitment to provide education to all irrespective of their social or economic standing. Today, I am studying at UMT because of the ILM Fund Financial Assistance Program. One day, I hope I will be able to give back to this Fund and contribute to this great legacy of giving.”

UMT Clinic

We maintain a healthcare facility that offers facilities for basic care to emergency treatment. The UMT Clinic provides excellent patient care experience to all those who avail its services. Staffed by qualified ICU trained physicians, staff nurses and paramedical staff along with fully equipped ambulance, the UMT Clinic provides medical services to students and staff in a professional, friendly and compassionate manner. Our team of doctors and nurses are fully trained to handle all types of campus emergencies. Whether you are feeling unwell or have questions regarding your immediate health or well being, our staff is available to help you out. There are also plans to upgrade this health facility to a fully operational hospital and expand the range of services being offered.

UMT Mosque and Islamic Center

The University of Management and Technology (UMT), Lahore, envisions a purpose-built campus that is complete in all dimensions of a modern university albeit with an Islamic perspective. The UMT Campus is a place of learning equipped with top-of-the-line learning facilities but first and foremost, it is envisaged as a place where students can worship, learn and strengthen their bonding with Allah for holistic and spiritual development. In these challenging times, when the Muslim *Ummah* is facing numerous cultural and intellectual challenges, the spiritual advancement of future generations of Muslims assumes even greater significance. The UMT Mosque and Community Center will serve just this purpose. Already, a *qari* has been appointed to teach *nazira* and *tajweed* to all those who seek spiritual fulfillment. Daily prayers, Friday and *Eid* prayers are also being offered in UMT mosque. Facilities for *itikaf* are also available in the UMT mosque.

The Mosque Project – the progress so far

Our mission is to design a mosque to serve as a center of spiritual, religious, educational, social and cultural learning for all the students/participants. Keeping this in view, the basic principles and prototypical standards set by our Prophet Muhammad (PBUH) for setting up a mosque have been observed. The UMT mosque, once completed, will present an architectural blend of old and contemporary Islamic art. Situated in the hub of UMT Campus, the Mosque has 70 feet multi-faceted circular folded dome rising 30 feet above the main prayer hall roof top guarded with two minarets standing tall at 100 feet; each opening up in a praying formation with reflection of '*Qalam*' (pen) harmonizing with the learning environment of the University.

Completion of Phase 1

Already the physical structure of the two-storey purpose-built mosque has been laid out; thanks largely to the blessings of Allah, the proactive and determined efforts of the UMT community, and the generous donations offered by philanthropists and alumni. Projected cost of the entire project amounts to Rs 69.02 million out of which Rs 30 million has been raised and spent in completing the first phase of the construction.

Development and Enhancement – Phase II

The second phase of the project will culminate in completion and adornment of the existing infrastructure. Planned facilities of the Mosque and Islamic Center include:

- Prayer facilities for up to 2,250 worshippers
- Full wheelchair access and facilities for persons with special needs
- Art exhibition, library, and interfaith room for *dawah*
- Office and meeting room
- Separate male and females ablution areas

The background image shows the interior of a mosque. In the upper half, there are rows of white, horseshoe-shaped arches supported by columns, creating a sense of depth and architectural rhythm. The lighting is warm and golden, coming from recessed lights in the ceiling. In the lower half, a wall is covered in intricate, colorful geometric tilework (mosaic) in shades of blue, green, yellow, and red. A patterned carpet is visible in the bottom right corner.

UMT Mosque Design Concept

Based on basic elements and principles of traditional mosque on the prototype developed by our Holy Prophet (PBUH), the proposed mosque has been conceived as landmark and hub of the UMT Campus and surrounding area. A simple, dynamic and traditional-modern architectural blending has been developed with 70 feet multifaceted circular folded dome rising 30 feet above main prayer hall roof top guarded with two minarets of around 100 feet height each opening up in a praying formation with reflection of '*Qalam*' (pen) harmonizes with the function of the University. The use of natural elements such as sun, water, vegetation, natural light and intrinsic factors like color, rhythm, harmony in the traditional man made elements of mosque architecture i.e. arches, domes, minarets, courtyards, ablution, jali, calligraphy, tile work, etc. have been fully exploited in the proposed design of the UMT Campus Mosque.

Salient Features

1. Plot Area	6 kanals approx
2. Covered Area	
– Ground Floor Plan	17,500 Sq ft
– Mezzanine/ First Floor	8,715 Sq ft
TOTAL	26,215 Sq ft
3. Praying Capacity	
– Main Prayer Hall	700 Persons
– Verandas Around Courtyard	550 Persons
– Courtyard	250 Persons
– Mezzanine / First Floor for Ladies only	550 Persons
– Terrace at First Floor for Ladies	200 Persons
TOTAL	2,250 Persons
4. Facilities	
Ablution for Men & Women	100 Persons
Toilet	30 Persons
Library	4,000 Books
Minarets	2 No = 100 Ft Height
Domes	2 Main, 5 Small

Assessment of Preliminary Cost Estimate

Building Civil works Including Electrical and Plumbing	26215 Sq ft @ Rs. 1440/ Sq ft Rs. 37.75 Million
Special Structural Works like Dome, Minarets, Calligraphy, Terracotta and Porcelain Tile and Marble Work, Mashrabias, Jali, etc.	26215 Sq ft @ Rs.575/ Sq ft Rs. 15.07 Million
External Development Works i.e. Pavements, W/S, Sewerage, Area Lighting, Landscaping, etc. @ 15 % of Cost at Item 1 Above	Rs. 37.75 x 15/100 Rs. 5.66 Million
Sub Total	Rs. 58.48 Million
Air Conditioning, Heating and Ventilation System Works	12600 Sq ft @ Rs. 575/Sq ft Rs. 7.25 Million
Furnishing Cost @ 5 % of Item 1- 4 Above	Rs. 65.73 x 5/100 Rs. 3.29 Million
Grand Total	Rs. 69.02 Million
