Our Vision....Learning

It defines our existence, inspires all stakeholders associated with us, creates a powerful momentum inside, and responds to the challenges outside. It continues to evolve as present captures new realities and foresight unfolds new possibilities, all in an incessant attempt to help individuals and organizations discover their God-given potentials to achieve Ultimate Success actualizing the highest standards of efficiency, effectiveness, excellence, equity, trusteeship and sustainable development of global human society.

Our Mission....Leading

We aspire to become a learning institution and evolve as the leading community for the purpose of integrated development of the society by actualizing strategic partnership with stakeholders, harnessing leadership, generating useful knowledge, fostering enduring values, and projecting sustainable technologies and practices.

STUDY IN LAHORE WITH UMT

Lahore City

The Knowledge and Cultural Metropolis

With a rich history that dates back to thousands of years, Lahore is Pakistan's second largest city with a population of approximately 10 million people, and the capital of the Punjab province. Lahore served as the capital of the Ghaznavids and the Ghuris in the 12th and 13th centuries. However, it was during the Mughal Rule (1524-1752) that Lahore reached the peak of its glory. The Mughals gave Lahore some of the finest architectural monuments that draw thousands of visitors to this day. Lahore was also the seat of power during the Sikh and British rule. Lahore is the city of poets, scholars, artists, journalists, sportsmen and the center of the film industry. It is also known as the city of colleges with a number of famous libraries, universities and schools. As the commercial and technological hub of the country, Lahore is the second biggest industrial base of the country. Lahore is poised to become the nodal point for the Global Knowledge Economy through the Lahore Knowledge Park – a standalone entity conforming to international standards that will create a space for collaboration between academia, government and industry.

The Journey from ILM to UMT

A Saga of Progress

UMT is a project of Institute of Leadership and Management (ILM) Trust. ILM was established in 1990 by leading educationists, professionals, and industrialists with an aim to enhance the organizational and individual effectiveness. Guided by the noble mission of helping others in actualizing their limitless human potential to its finest shape, ILM sought to respond to the challenges of information-based economy, globalization, and ever increasing complexity.

UMT – now an independent, not-for-profit, private institution of higher learning – received her degree-granting charter first as the Institute of Management and Technology (IMT) in 2002 through an Act of the Assembly of the Punjab. Later, on 16 June 2004, IMT became University of Management and Technology through the passing of a similar Act by the Punjab Assembly. UMT is recognized by the Higher Education Commission (HEC) of Pakistan as a 'W4' category (highest rank) university. For more than two years, UMT was also at the top as per HEC ranking in General Category (medium-sized) of private sector institutions in the Punjab.

Mark of Distinction

Emergence with Eminence

In 2015, UMT celebrated 25 years of 'Emergence with Eminence' in recognition of its contribution to the promotion of higher education in Pakistan. Over the years, UMT has become renowned for its highly rated faculty members who are graduates of top universities of the world with vast experience of the corporate and business sector. That is why our graduates are hired by leading national and international organizations on account of the market driven and practical education imparted to them by our highly qualified faculty members. UMT provided exceptional professional development and training opportunity to selected faculty members at George Mason University, USA, in 2016. Our faculty members are also recipients of 'Best University Teacher Awards' by the HEC for 3 consecutive years.

UMT has come a long way since its inception. There has been tremendous growth in academic disciplines and infrastructure. In addition to the social sciences programs, over the years, UMT has also launched the School of Health Sciences, School of Engineering, School of Food and Agricultural Sciences and Aviation programs in response to market demands. These programs have attracted large number of students and are running successfully. UMT School of Business and Economics (SBE) has SAQS accreditation by the Association of Management Development Institutions in South Asia (AMDISA) while its business programs have been accredited by National Business Education Accreditation Council (NBEAC). SBE is ranked among the top 8 business schools in Pakistan by NBEAC. SBE is in academic alliance with SAP, ORACLE, Microsoft Dynamics and IBM which distinguishes it as one of the best schools of Pakistan. UMT has also won international recognition for scientific research. It was among the top 4 in scientic research in Pakistan in Nature Index Table 2016. National Accreditation Council for Teacher Education (NACTE) has accredited teacher education programs at UMT. The courses of study at UMT are designed to develop the skills of students in specific areas that are important for employers. As such, UMT ensures that all academic programs are relevant to real world business needs and guide students towards a successful future.

This journey of excellence is on to keep our tradition of leading and learning.

Top Accreditations

Top Prestige

Institutional accreditations and memberships determine the extent to which university programs meet the rigorous quality criteria which are required in specialized professional fields. Due to our top accreditations, UMT is one of the best accredited universities in the South Asian region. We strongly believe that relevant accreditations are the means through which our programs are benchmarked against best practice.

Competitive Edge through Worldwide Collaborations

UMT is striving round the clock to provide the best educational climate to its students by weaving research and practical knowledge together. To give students an edge over other public and private sector universities, UMT has joined hands with over 40 leading international universities, established student and faculty exchange programs, and launched other collaborative measures to enhance the learning experience of the students.

Institutional Memberships and Alliances

Sharing a Global Vision

UMT recognizes the importance of institutional memberships and alliances for developing, supporting and strengthening its academic programs. These memberships and alliances provide opportunities for faculty professional development, updating of curriculum and incorporation of latest trends in the relevant disciplines. Institutional members and alliance partners also get together and work towards joint agendas for promoting academic scholarship.

Professional Centers

Avenues for Knowledge Creation

UMT centers are working to facilitate academic-industry linkages. They provide real world exposure to the UMT participants and faculty, offer excellent learning and placement opportunities, and promote research and consultancy. These centers often invite eminent professionals in various seminars and events to provide learning and networking opportunities.

Outstanding Faculty

Experience World-Class Coaching

Our faculty members are the pride of UMT. Drawn from some of the best universities across the globe, they have a distinguished history of service in the world of academia as well as a rich industry/corporate experience. With **600+** faculty members, **125+** PhDs and **17:1** student faculty ratio, UMT can rightly lay claim to being one of the few universities in the region that has the most highly qualified and experienced faculty members. UMT faculty holds membership of prestigious international bodies across the world and gains valuable insight through these memberships. Through knowledge transmission, our participants are the ultimate beneficiaries of the insight gained through these memberships.

Promoting
Research Culture

Impacting the Real World

Research plays a critical role in the economic and social development of society. As such, universities that focus on academic research help their countries to join the global knowledge society. UMT is committed towards the promotion of research culture and actively helps faculty members and students to undertake research ventures in diverse fields. UMT students find themselves immersed in a stimulating and supporting environment among leading academics making cutting-edge discoveries.

In 2016, **370** research papers authored by UMT faculty members and students were published in reputable journals or in proceedings of national and international conferences: this included **236** journal papers and **134** conference papers. Most of them were published in leading databases such as **Thomson and Reuters**, and **Scopus**. This year, UMT has taken special initiative to launch new journals to further strengthen research culture. The emphasis is on encouraging faculty and students to produce original top quality research and contribute to knowledge creation.

UMT Journals

- Journal of Islamic Thought and Civilization
- Journal of Management and Research (JMR)
- Journal of Media and Communication Studies
- Journal of Quantitative Methods (JQM)
- English Language and Literature Review
- Inclusive Education Review
- Islamic Banking and Finance Review
- Law and Policy Review
- Organization Theory Review
- Scientific Inquiry Review
- UMT Education Review
- UMT SEN Transactions

Disseminating Research

Sharing and Embracing New Ideas

UMT encourages and facilitates its faculty members to share their original ideas and thought provoking research through participation in various conferences that are held across the world. This type of global exposure not only provides them access to groundbreaking research in their specialized fields but also opens avenues for new and innovative research ideas. This enables them to explore and implement these latest research ideas in the context of indigenous needs of our society and guide UMT research scholars to conduct further research to respond to real challenges of our country.

Facilitating Research

Connecting Researchers and Research Users

The Office of Research Innovation and Commercialization (ORIC) has been set up in the light of HEC instruction to facilitate research and development in the University of Management and Technology. It has the mandate to develop an enabling environment in the University where researcher and research user can interact, work and develop cutting-edge research based technologies. ORIC serves as an excellent bridge between university research and research user of industry and society.

Objectives

- To promote need-based research at UMT
- To build capacity of researchers for quality research
- To link research with industry and society
- To develop an enabling environment for applied research in UMT

Facilitation

- Identification and evaluation of potential ideas
- Collaboration with potential industry
- Development of research and technology
- Commercialization of technology

Progress

More than three-year journey of progress of ORIC at UMT showcases various research projects and proposals plus strong and growing linkages with industry groups. These milestones have been achieved through the following initiatives:

- Conferences, workshops and seminars
- UMT ORIC-NOP (National Outreach Program)
- ORIC-UMT ventures
- Allied networking
- MoUs with various renowned organizations, NGOs, foundations, etc.

Quality Enhancement Cell

Enhancing Academic Quality

92.5% Awarded to QEC-UMT by QAA-HEC

In 2016, the Quality Enhancement Cell (QEC) of UMT was awarded 92.5% on the basis of quantitative assessment that is conducted annually by the Quality Assurance Agency (QAA) of HEC, Pakistan. For the last five assessments, UMT has successfully maintained its ranking in W category (85%-100%) which is the highest category that can be awarded to an institution.

Objectives

UMT established the Quality Enhancement Cell (QEC) to serve as an innovative quality center with national and international linkages and facilitate the change activities within UMT. The aim of UMT-QEC is to become a facilitator in enhancing the quality of the academic programs as well as effective management of all the internal processes to satisfy various stakeholders including students, faculty, parents, corporate partners and society. It also provides informational support for academic policies and contributes towards timely feedback of all the stakeholders.

At UMT, QEC is the focal point for facilitation of the implementation of HEC prescribed standards as well as the enhancement of quality initiatives in a continuous manner. It acts as 'catalyst body' to help expedite the quality implementation and attain new standards of excellence for UMT.

Alumni Network

Lifelong Relationships and Support

Over **16,000** UMT Alumni are working in diverse fields in **40+** countries across the continents, creating and contributing to a leadership heritage that has become the hallmark of our graduates. UMT Alumni are employed in leading positions in major sectors of industry and have maintained strong links with their alma mater through the Ilmians Network which comprises of **15+** international and **25+** national chapters. UMT believes in maintaining long term relationships with its students and this relationship does not end when the courses of study culminate. UMT provides a global support network throughout the life of its alumni.

Career Development

Enhancing your Employability

At UMT, we are focused on developing the skills of students to a higher level, making them more attractive to the right kind of employers. UMT has long standing links with business, industry, public sector and professional organizations. The insights gained from them give us inputs for our courses which adds to the student experience and boosts their employability.

Moreover, a specialized team of dedicated professionals provides information, advice and guidance to the students. Meetings with CEOs, mock interviews, recruitment drives, annual job fairs, mentoring sessions, and career clinics are regularly organized to facilitate the students.

Range of Scholarships

Recognition of your Achievement

UMT remains committed to providing quality education to all students irrespective of their social or financial standing. A wide range of scholarships are offered to the bright and talented students who choose to study at UMT. Merit based scholarships are awarded at the time of admission, while the need based financial assistance can be requested during the course of study only in exceptional circumstances.

Top-Notch Laboratories

Providing Hands-on Learning

UMT is equipped with 50+ science, engineering, health sciences and textile laboratories to provide hands-on learning and practical experience to students. The learning is augmented through practical work done in these laboratories which are regularly upgraded and expanded to provide a world-class learning experience to our students.

Top-Notch Laboratories

Library and Learning Resource Center

Treasure-House of Knowledge

UMT supports its academic programs and research initiatives through a state-of-the-art Library and Learning Resource Center (L&LRC). The intrinsic focus of the L&LRC is to make available the persistent intellectual linkage required to build specific resources, and pave the way towards attainment of rare to-be-found scripts, contents and substances for researchers and students. The well-stocked Library and Learning Resource Center has over **130,000** books to facilitate learning and research, **75** foreign and local journals, **18** online journals and books databases, **14** special collections, and **1** Learning Disability Center for scholars. The corporate clients, students and alumni who use the services and resources of the L&LRC term it as the treasure-house of knowledge.

International Students

Become a Part of Multicultural Community

UMT has a strong international outlook, welcoming students from many countries across the globe who add their perspective to enrich the overall learning experience of UMT students. Our campus is the hub of a thriving multicultural community, engaged in learning in a safe and self-contained campus in the center of Lahore. Studying at UMT means that students are exposed to a myriad mix of beliefs, values and cultural ethos which gives them international exposure and instills respect for diversity.

Diverse
Student Body

Promoting National Integration

UMT students are drawn from all the provinces of Pakistan including the remote areas. UMT Campus truly reflects the diversity within Pakistan as students from Balochistan, Gilgit-Baltistan, FATA, Interior Sind, etc., interact with students from other cosmopolitan areas, thus promoting a spirit of national integration and harmony. UMT's talented and diverse student body has the intellectual capability and social skills to contribute to the development and progress of Pakistan.

Nurturing your Talent

We want UMT students to be active, enthusiastic and high spirited. The concept of student societies and clubs at UMT is all about having fun, getting active, making new friends, building strong bonds and enhancing or learning new skills. Currently, UMT has different active societies and clubs that cultivate students' skills in diverse areas.

Global Exposure
of Students

Broadening your Horizons

The benefits accruing from educational and cultural exchange programs create new learning opportunities, and help students to gain a better understanding of foreign cultures and the global economy. This helps them to work and progress in diverse settings, develop an understanding of international collaboration, and respect diversity of opinion. The student exchange programs, and academic and cultural visits at UMT lay the foundation for this and enhance the competency of our graduates.

International and
National Conferences

Sharing New Ideas and Opportunities

UMT recognizes the importance of organizing and actively participating in international and national conferences as these provide great learning and networking opportunities to faculty, students and staff. They also serve as a forum where one can meet with global leaders and researchers in their respective fields and engage with key stakeholders in a particular area. Over the years, UMT has organized a diverse range of conferences with some becoming a regular feature.

- UPIC Conference on Building Bridges: Discovering the Foundations for Interreligious Harmony 2017
- 2nd International SME Conference 2017
- International Conference on Clinical Psychology and the Developing World
- 3rd UMT International Conference on Pure and Applied Mathematics (3rd UICPAM-2017)
- Deans and Directors Conference

Infrastructure Development

Improving our Campus

At UMT, the rising number of students every year and introduction of new disciplines has been accompanied with development of infrastructure and related facilities. The University is continuously investing in its Campus to provide even better facilities to support the learning, teaching and social experiences of students.

School of Engineering (SEN) Building
In 2015, the new School of Engineering (SEN) building became operational; it brought all the Engineering disciplines into a purpose-built state-of-the-art facility. The eye-catching airy building provides space for both generic and specialist laboratories, as well as open areas for group work, information learning and socializing between lectures.

Admin Building
The new administrative building was also completed and became operational in 2015. The building is a self contained unit which houses all management and statutory offices. Students of all programs now have access to all support services at a single location. Furthermore, the building also has a bank to facilitate financial matters of students.

Admissions Office
UMT recognizes that the Office of Information and Admissions (OIA) is the first point of contact for potential students and their parents. In order to provide the best facilitation to the visitors of UMT Campus, the OIA Block has been renovated with modern facilities. Our courteous and competent staff members guide potential students and their parents about the various study and career options available to them.

Future Expansion Plans

A new multi-school building is under construction to accommodate the rising number of students. The building will have state-of-the-art laboratories and classrooms. Construction on a purpose-built School of Health Sciences building also commenced in 2017. The building will have the required laboratory facilities and dedicated classrooms to cater to the requirements of students of health sciences.

This expansion is in keeping with UMT's commitment to provide the best infrastructure to facilitate learning and research. Once completed, these purpose-built buildings will facilitate the students and add to the vibrant campus life.

First Rate Facilities

UMT believes in offering the best facilities to its students. As such, the UMT Campus offers more than an educational and research environment. Students have access to recreation and leisure as well as excellent computing and lab facilities, hostel residency for out of station students, and a well maintained and efficient transport service.

IPC
Information Processing Center

Information Processing Center (IPC) at UMT provides state-of-the-art facilities and has **650+** computers. IPC serves 2000-3000 participants daily. Its standards meet the international requirements of highly advanced IT equipment and services including Intel® Core i7, Intel® Core™ i5 systems, **8** computer classrooms, 3 HP 9050 heavy duty laser printers, **52** Mbps CIR Internet bandwidth, and scanners and CD/DVD writers.

Transport

UMT provides reliable and cost effective transport service to both day scholars and hostel residents. A fleet of 15 air-conditioned coasters and buses provides shuttle services to the students and staff members at **100+** routes that cover all important areas across the city.

Medical Services

UMT promotes and protects the health and well-being of its students and staff which facilitates them to efficiently achieve their educational and personal goals. Apart from medical coverage of staff members, the on-campus UMT Medical Services Unit povides emergency medical care to employees and students of the University. This also includes a well equipped ICU unit which is staffed with fully qualified ICU-trained physicians, staff nurses and paramedical staff.

Grand Mosque

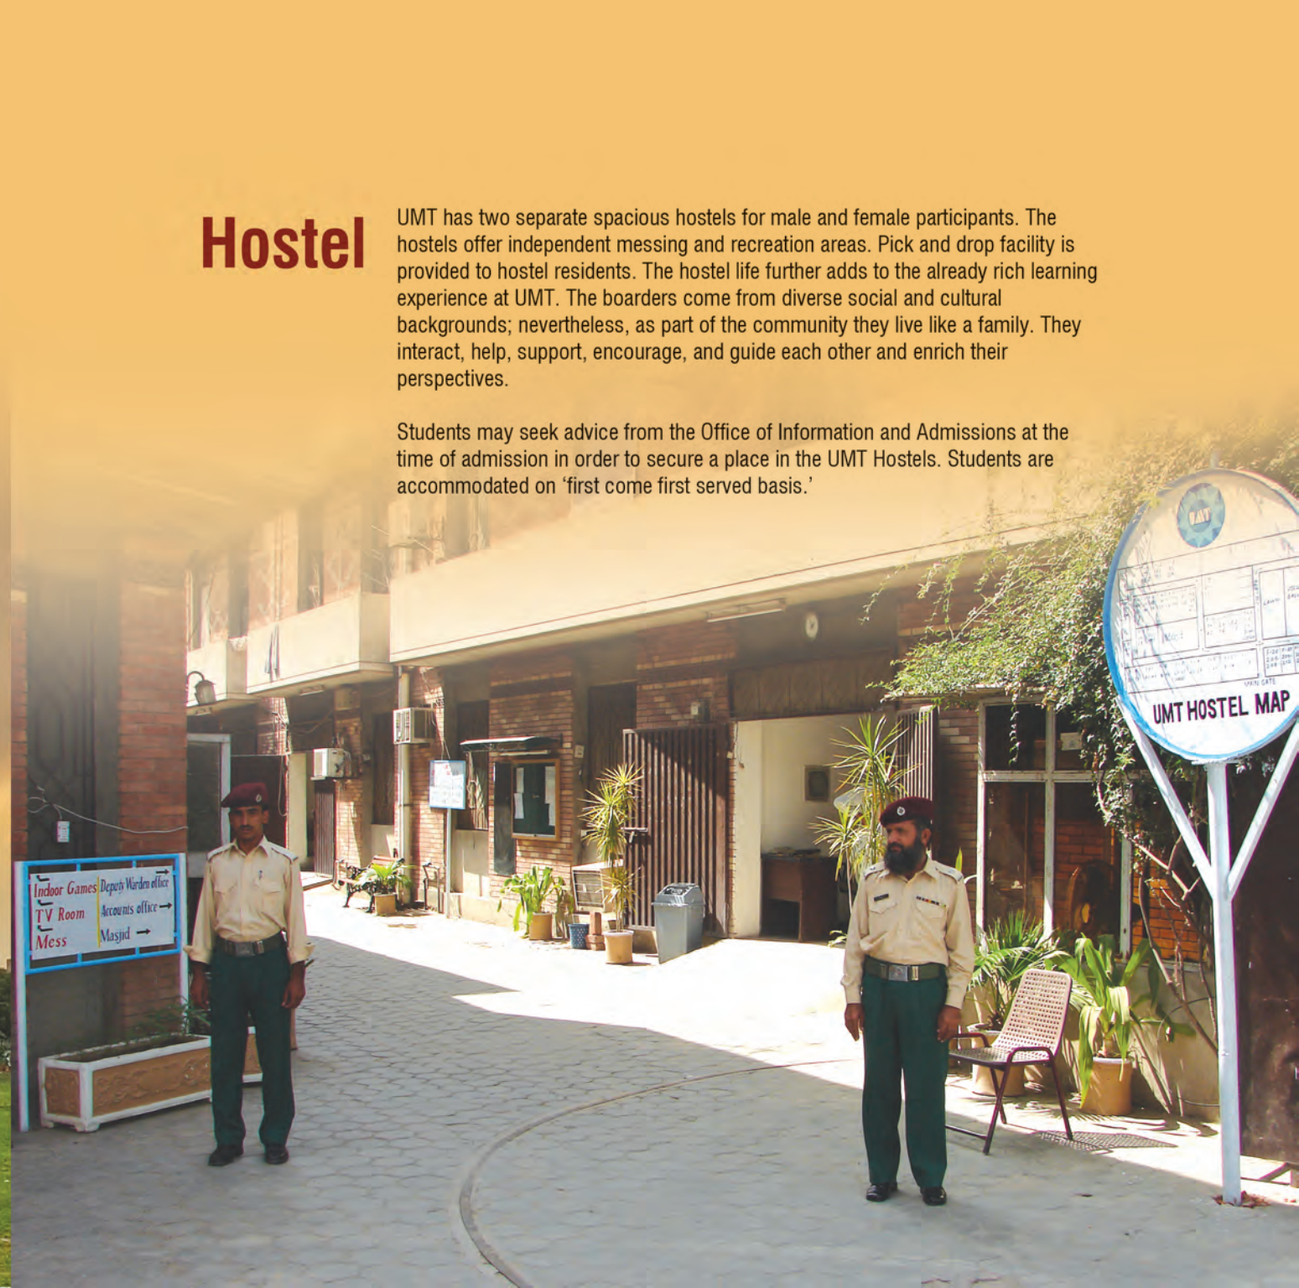

The UMT management believes that imparting scientific, business and other practical knowledge is not the only part of the mission of a modern university. It is equally important to instill strong moral and ethical values in the students who pass through the doors of our University. Keeping this in view, a Grand Mosque has been built in the University Campus. The UMT Grand Mosque caters to the spiritual and holistic development of the students by offering facilities for daily prayers as well as Friday sermons by renowned scholars and speakers.

Hostel

UMT has two separate spacious hostels for male and female participants. The hostels offer independent messing and recreation areas. Pick and drop facility is provided to hostel residents. The hostel life further adds to the already rich learning experience at UMT. The boarders come from diverse social and cultural backgrounds; nevertheless, as part of the community they live like a family. They interact, help, support, encourage, and guide each other and enrich their perspectives.

Students may seek advice from the Office of Information and Admissions at the time of admission in order to secure a place in the UMT Hostels. Students are accommodated on 'first come first served basis.'

Cafeterias

The UMT Cafeterias provide a relaxing environment to the students where they can enjoy meals and snacks during breaks from their studies. The cafeterias offer high quality hygienic food at reasonable rates. Menu items cover a wide range of fast food, snacks, juices, barbecue, Chinese and traditional food, and much more. Special emphasis is placed on maintaining the highest standards of quality and cleanliness.

Incorporating Best Practices

The UMT administrative and statutory offices support the academic and other management related functions through unwavering commitment and dedicated service to all stakeholders. These offices are staffed by competent and industry savvy professionals who facilitate visitors, faculty members, students and their parents/guardians in the best possible manner. They also wholeheartedly facilitate the teaching, learning and research activities of UMT students, staff and faculty.

UMT Sialkot

Expanding our Reach

UMT is the first private sector university to establish HEC approved sub campus in Sialkot, the city known for the manufacturing and export of items such as surgical and musical instruments, sports, leather and textile goods. UMT Sialkot Campus was formally opened on May 2, 2012. The 20-kanal campus provides several multimedia classrooms, laboratories, computer labs equipped with state-of-the-art computers, campus wide Wi-Fi internet facility, and well-stocked learning resources. More than 1300 students are currently studying at the Sialkot Campus.

Bureau Office, Ankara

Global Presence

University of Management and Technology (UMT) has successfully launched a bureau office in Ankara, Turkey. This breakthrough happened after the significant visit of Dr Hasan Sohaib Murad whereby he met with top Turkish leadership to get their support for establishing a world-class university to translate the concept of 'Two Countries-One Nation' about Pakistan-Turkey friendship into reality.

Objectives

- To establish linkages with Turkish academic partners
- To establish UMT Sub Campus in Turkey
- To ink MoUs with leading Turkish universities

Growth Excellence Leadership

Institute of Knowledge and Leadership, Dubai

Powerhouse of Learning

Institute of Knowledge and Leadership (IKL), a corporate education and learning power house offers talent development solutions backed by years of delivering the highest quality. Its programs are aimed at preparing and honing essential competency skills to meet challenges of operating in a global economy, heads on.

IKL is serving prominent clients from across the MENASA region. Its presence in Dubai Knowledge Park, with access to cutting-edge man and material resources including its highly qualified pool of global trainers is a testimony to its credentials.

Philosophy

IKL has identified Growth, Excellence, and Leadership as three dynamic components of an evolving organization. This evolution, we believe is the catalyst driving organization and individual transformation towards leadership in today's market. Hence, we have chosen these to be our magna carta.

UMT Press

Converging the Intelligentsia

UMT Press is the publishing house of the University. It is dedicated to the dissemination of knowledge through publications, alliances and networks of intellectuals, authors, poets and scholars from diverse fields of art and literature. Publications meet the standards of academic excellence and literary flavor. UMT Press has taken up the challenge to provide common platform to writers who assemble at *Adabi Baithak* in UMT. Currently, **8** translations and **5** manuscripts are in process while **12** manuscripts have been developed.

The Knowledge School Network

Inspire to Rise

The Knowledge School (TKS), a project of ILM Trust, is a country-wide network of comprehensive schools (playgroup to class X). TKS Schools have been set up as an initiative to provide quality education at an affordable fee. Students at The Knowledge Schools are promised not only effective learning in all academic subjects but also personality grooming based on our social and moral values.

200+	TKS branches all over the country
25	New schools per year (average growth rate)
30,000+	Students
14,400	Boys
15,900	Girls

ILM Fund

All the Support you Need

ILM Fund, a project of ILM Trust, is committed to provide access to higher education for all. We seek to meet increasing demand of scholarships for which donations are collected and effectively relayed to deserving scholars. ILM Fund helps students to accomplish their aim of acquiring education by easing their financial hardship. Each year, ILM Fund awards financial assistance and scholarships to talented and needy students at University of Management and Technology.

Support ILM Fund

- We aspire to transform talented and underprivileged students into leaders of tomorrow
- All donations with us are secure and are spent on providing financial assistance to those who deserve it
- We provide education to improve social mobility and bring down disparity for future generations
- Since its inception, over 1 Billion Rupees worth of scholarships were awarded to underprivileged and exceptionaly talented students from various districts of Pakistan

PROMOTING TALENT

UMT has always provided real life opportunities to students in order to polish their skills and prepare them to meet the challenges of their future professional lives. Over the years, the University has inculcated practical life skills and enhanced their creative abilities for an inspiring future.

In order to further nurture their talent, UMT provided a platform to its students for showcasing their professional photography in this year's corporate brochure. All the photographs in this brochure have been taken by our talented students, **Ahmad Bin Yosaf**, **Abdullah Afzal Khan** and **Asim Mushtaq**.
