Our Vision is... Learning

It defines our existence, inspires all stakeholders associated with us, creates a powerful momentum inside, and responds to the challenges outside. It continues to evolve as present captures new realities and forsee's new possibilities. All in an incessant attempt to help individuals and organizations discover their God-given potentials to achieve ultimate success actualizing the highest standards of efficiency, effectiveness, excellence, equity, sustainability, and the development of global human society.

Our Mission is... Leading

We aspire to become a leading institution and evolve as the leading community for the purpose of integrated development of the society by actualizing strategic partnership with stakeholders, harnessing leadership, generating useful knowledge, fostering enduring values, and projecting sustainable technologies and practices.

The journey from ILM to UMT

UMT was established in 1990 as a project of Institute of Leadership and Management (ILM Trust). ILM was established by leading educationists, professionals, and industrialists with an aim to enhance the organizational and individual effectiveness. Guided by the noble mission of helping others in actualizing their limitless human potential to its finest shape, ILM sought to respond to the challenges of information-based economy, globalization, and ever-increasing complexity. Spurred on by the great success of ILM, the institution applied for a university Charter, which was granted to it in 2004. It is an independent not-for-profit private organization. The Higher Education Commission (HEC) of Pakistan has awarded W4 rating to UMT, which is the highest university ranking. It is worth mentioning that UMT is the first university in the Punjab to receive this highest rating. In addition to that, the engineering programs being offered at UMT are approved by the Pakistan Engineering Council (PEC). The School of Business and Economics at UMT has achieved SAGS (South Asian Quality System) and NBEAC (National Business Education Accreditation Council) accreditations. Furthermore, the Computer, IT and Software programs offered at UMT are accredited by National Computing Education Accreditation Council (NCEAC).

The University

The University of Management and Technology (UMT) is considered to be one of the premier higher education institutions in the country. It is an urban, coeducational university that is dedicated to excellence in teaching and research. It provides a wide range of degree programs that match international standards of scholarship. The university takes pride in its institutional climate and academic culture. It provides a friendly and highly supportive environment to its students. There is ample opportunity for positive interaction between students and faculty. UMT encourages students to be receptive to new ideas, to ask objective questions and to pay attention to detail in order to infuse participants with an aptitude for lifelong learning. It values freedom of speech, permits dissent and welcomes diversity of views. It aims to produce well-rounded individuals who can make positive contributions to society on personal and professional levels.

UMT believes that the university has a primary role in producing criteria who will be leaders and decision makers of the future. More than anything else, UMT is proud of the high quality of its academic programs. The curriculum not only provides a solid foundation of the disciplines involved but also imparts specific skills and specializations that the students are looking for. The university responds to changes both in the workplace and in academic scholarship. Its courses are highly demanding and relevant to the requirements of the work environment. At UMT, lifelong learning is not a mere slogan. UMT provides a basis for the professional development of both teachers and students.

A wide range of doctors, masters and bachelors degree programs are being offered in the nine schools and three institutes running under the umbrella of UMT, the premier institution of higher learning in the country. All the academic programs offered by UMT are recognized by the HEC and conform to international standards and the credits can be transferred worldwide.
