Title Organization change : theory and practice. 2nd ed / by Burke, W. Warner

Imprint London : Sage publication, c2008

Book Location R 658.406 BUR-O

Subject Organizational change & leadership

Synopsis

The Second Edition provides an overview of the theoretical and research foundation for our current understanding of organization change, including the nature and types of change organizations experience. The author reviews various models, including the one developed by Burke and Litwin, and uses cases to demonstrate how the models can be used to diagnose change issues in organizations. Emphasizing planned, revolutionary change over the gradual, evolutionary change organizations typically experience, Burke combines and integrates theory and research with application for insight into all aspects of organization change.

<i>Title</i>	The bluebook: a uniform system of citation 18 th ed / edited by Columbia law review
<i>Imprint</i>	Massachusetts : Harvard Law Review Association, c2005
<i>Book Location</i>	340.01 BLU-
<i>Subject</i>	Citation of legal authorities - United State

Synopsis

The Bluebook contains three major parts. The first part is the Bluepages. New to the Eighteenth Edition, the Bluepages are a how-to guide for basic legal citation. Unlike the remainder of *The Bluebook*, which is designed in a style and at a level of complexity commensurate with the needs of the law journal publication process, the Bluepages provides easy-to-comprehend guidance for the everyday citation needs of first-year law students, summer associates, law clerks, practicing lawyers, and other legal professionals. The examples used throughout the Bluepages are printed using simple typeface conventions common in the legal profession. The second part is the heart of the *Bluebook* system of citation: the rules of citation and style. This part is subdivided into two main sections. The first section, consisting of rules 1 through 9, establishes general standards of citation and style for use in all forms of legal writing. The second section, consisting of rules 10 through 21, presents rules for citation of specific kinds of authority such as cases, statutes, books, periodicals, and foreign and international materials. The examples used throughout this part are printed using typeface conventions standard in law journal footnotes. The third part consists of a series of tables to be used in conjunction with the rules. The tables show, among other things, which authority to cite and how to abbreviate properly. Individual tables are referenced throughout the book. Finally, there is a comprehensive index.

Title Organization effectiveness and change management / by
Kondalkar, V.G.

Imprint New Delhi : PHI learning private limited, c2009

Book Location R 658.406 KON-O

Subject Management , Organization development

Synopsis

This comprehensive book discusses in detail the problem areas that organizations find difficult to address for achieving organizational effectiveness and managing change, and suggests how such problems can be tackled in an effective manner. The text begins with a discussion on the definition of organizational effectiveness and its various models, and then goes on to explain the concepts of management by objectives, total quality management, business process reengineering, and six sigma, which are so crucial for organizational effectiveness. Expectations of customers are invariably increasing and quality-products are in demand more than ever before. Globalization and competition between companies have accentuated the problem. To fulfill customer aspirations and adhere to world class standards, organizations need to modify their structural framework. And so the text devotes a separate chapter each to such concepts as virtual organization, corporate governance, and developing collaborations. The book concludes with an emphasis on the role of motivation, leadership and team building in organization effectiveness. Case study given at the end of each chapter illustrates the concepts discussed and lends a practical flavor to the text. The book is designed for the postgraduate students of management. It would also be useful for the executives who want to implement change in their organization to be competitive in the market, and those who wish to keep pace with the changing business environment.

Subject Education

Synopsis

Dictionary of education the science of education [has come] of age. While the art of education is of very ancient lineage, the science of education came into being with the birth of the twentieth century. During the year that has intervened between that date and this [1945], thousand of pioneers have freely coined expression and given strange new meaning to old words without regard to accepted usage. The dictionary of education will serve two historical purposes. On the one hand, it is the first instrument of the profession as a whole which is dedicated to exactness of word and the artistry of precision. On the other hand, this edition provides a solid base on which to build a more perfect instrument.
