About School of Commerce and Accountancy

In today's evolutionary business world, the importance and depth of areas of Commerce, Accounting, Auditing and Control Systems, and Finance is understood and admitted. Keeping this in view, UMT has established the 'School of Commerce and Accountancy' (SCA) to provide quality education in the fields of Commerce, Accounting, Auditing and Control Systems, and Finance.

The objective of SCA is to focus on the areas of Commerce, Accounting, Auditing and Control Systems, and Finance by developing new programs meeting today's business requirements and to train the students with requisite knowledge and skills to become a leader in business organizations both nationally and internationally.

SCA is committed to produce Commerce, Accounting, Auditing and Control Systems and Finance professionals to compete in a dynamic and challenging business environment. SCA assures a bright and prosperous future for its students by providing them quality education in the fields of Commerce, Accounting, Auditing and Control Systems and Finance.
