Sample Paper UGAT (General)
School of Social Sciences, University of Management and Technology

The test has 3 parts: Verbal / English, Quantitative Analysis, & Logical & Analytical Reasoning.
Specimen for Verbal/ English

Read the following texts carefully and answer the given questions.

TEXT 1

Some researchers distinguish primary emotions, which are thought to be universal, from secondary emotions, which include variations and blends that are specific to cultures. The primary emotions are usually identified with fear, anger, sadness, joy, surprise and disgust. Other psychologist doubt that surprise and disgust are true emotions; they also think that this list omits universal emotions, such as love, hope, empathy and pride, that are difficult to measure psychologically.

1. According to the passage, other psychologist thinks that the emotions of surprise and disgust are _____.
   A. true emotions
   B. difficult to measure
   C. not true emotions
   D. secondary emotions
   E. primary emotions
