Faculty Development Program

University of
Management and Technology

Introduction

Today the occupation of teaching has turned out to be very testing. An educator can show throughout the day and cover a broad measure of material, however in the event that understudies haven't learnt the material, the activity is a colossal exercise in futility and vitality. Being a teacher isn't just about sharing information; it is tied in with ensuring that students really incorporate this information and determine learning out of it. Any showing that does not bring about powerful learning is futile. In this way, to be a compelling educator, one should have the capacity to convey the space learning utilizing the most reasonable instructive devices. A compelling instructor is likewise required to stay at the outskirts of information in his/her zones of subject ability and increase working learning of different areas as administration is basically interdisciplinary. For this, each instructor needs to constantly redesign himself/herself by participating in look into.

This Faculty Development Program (FDP) is gone for sharpening the instructing and research aptitudes of imminent, new and prepared administration instructors, scientists and mentors.
