Introduction

The leading educationists, professionals and industrialists founded 'Institute of Leadership and Management' in 1990 with an aim to serve the nation by providing quality education blended with technological orientation in order to respond to the challenges of information technology, socio-economic development and globalization.

Initially, ILM introduced well structured short courses which were highly appreciated by students and professionals. ILM launched professional degrees like MBA and BCS in 1993. In recognition of the excellent standard of education at ILM, Hamdard University of Karachi graciously granted affiliation to ILM in 1995 for award of degrees.

The Govt. of the Punjab granted charter to ILM as degree awarding institute in 2002. After grant of charter by the Govt. of the Punjab, ILM was renamed as 'Institute of Management and Technology.' In 2004, Institute of Management and Technology became University of Management and Technology.

UMT outshines with W4 category (highest rank), having 650+ faculty members including 160+ PhD faculty members. UMT has been ranked among the top 500 universities in QS Asia University Rankings 2019. The 200+ kanal purpose-built campus has state-of-the-art engineering and textile laboratories, well stocked library with over 130,000 books and latest digital resources.

Message from the Founder

It is not easy to summarize UMT's progress in words alone. We have used infographics to capture traces of our journey. What is shown here is only partial portrayal just to indicate the potential. We are new to the world!
We will review the world with our best!

Dr Hasan Sohaib Murad
Founder, ILM Trust and UMT

UMT's legacy of innovation, achievement and success is creating a powerful impact on society. UMT's remarkable progress over the years testifies to the extraordinary teamwork of the UMT community who have built this great university. Together, we will reach greater heights of academic excellence and contribute towards national development.

Dr Muhammad Aslam
Rector

Message from the Rector

VISION

Learning

It defines our existence, inspires all stakeholders associated with us, creates a powerful momentum inside, and responds to the challenges outside. It continues to evolve as present captures new realities and foresight unfolds new possibilities, all in an incessant attempt to help individuals and organizations discover their God-given potentials to achieve Ultimate Success actualizing the highest standards of efficiency, effectiveness, excellence, equity, trusteeship and sustainable development of global human society.

MISSION

Leading

We aspire to become a learning institution and evolve as the leading community for the purpose of integrated development of the society by actualizing strategic partnership with stakeholders, harnessing leadership, generating useful knowledge, fostering enduring values, and projecting sustainable technologies and practices.

Top Accreditations

Institutional accreditations and memberships determine the extent to which university programs meet the rigorous quality criteria which are required in specialized professional fields. Due to our top accreditations, UMT is one of the best accredited universities in the South Asian region. We strongly believe that relevant accreditations are the means through which our programs are benchmarked against best practice.

and Regional Planning

A large, stylized globe is the central focus of the page. It is composed of a complex network of blue lines that intersect to form a spherical shape. The lines vary in thickness and color, ranging from light blue to dark blue. The globe is set against a background of a faint, grey network of dots and lines, resembling a molecular structure or a global communication network. The globe itself has a slight shadow beneath it, giving it a three-dimensional appearance.

60+ International Linkages

UMT is striving round the clock to provide the best educational climate to its students by weaving research and practical knowledge together. To give students an edge over other public and private sector universities, UMT has joined hands with over 60 leading international universities, established student and faculty exchange programs, and launched other collaborative measures to enhance the learning experience of the students.

Institutional Memberships and Alliances

UMT recognizes the importance of institutional memberships and alliances for developing, supporting and strengthening its academic programs. These memberships and alliances provide opportunities for faculty professional development, updating of curriculum and incorporation of latest trends in the relevant disciplines. Institutional members and alliance partners also get together and work towards joint agendas for promoting academic scholarship.

Faculty Memberships

UMT faculty holds membership of prestigious international bodies across the world. These memberships keep them updated about the latest developments in their respective disciplines and provide a forum where like-minded individuals share their experiences and expertise. Our participants are also beneficiaries of the insight gained through these memberships as the faculty members transmit knowledge to the students.

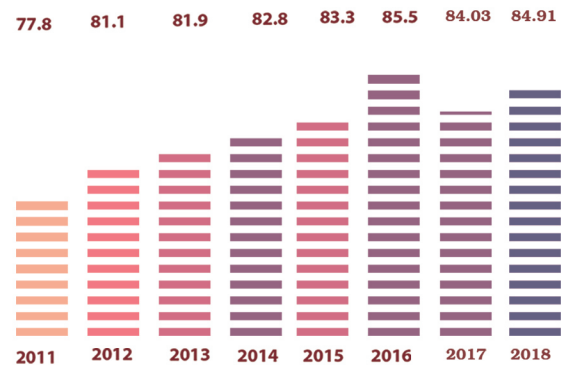

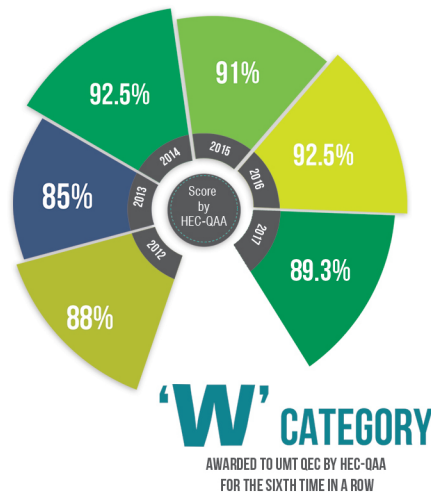

Quality Assurance

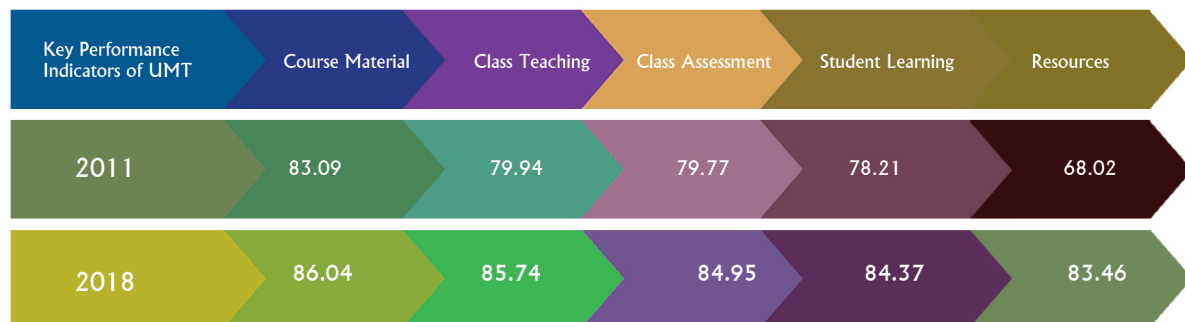

Overall Percentage of UMT KPIs

The Quality Enhancement Cell (QEC) of UMT was awarded 89.3% on the basis of quantitative assessment that is conducted annually by the Quality Assurance Agency (QAA) of HEC, Pakistan. For the last six assessments, UMT has successfully maintained its ranking in W category (85%-100%) which is the highest category that can be awarded to an institution.

Key Performance Indicators % (KPI)

Degree Programs Offered

UMT offers a unique blend of 125+ academic degree programs in a wide range of disciplines. The curriculum not only provides a solid foundation of the disciplines involved but also imparts specific skills and specializations that the students are looking for. The University responds to the changes both in the workplace and in the world of academia, and its courses are highly demanding and relevant to the requirements of the changing trends. Almost all the academic programs offered by UMT are recognized by relevant authorities or HEC, conform to international standards and the credits can be transferred worldwide.

Professional Centers

UMT centers are working to facilitate academic-industry linkages. They provide real world exposure to the UMT participants and faculty, offer excellent learning and placement opportunities, and promote research and consultancy. These centers often invite eminent professionals in various seminars and events to provide learning and networking opportunities.

Center for Industrial Services and Research

A center for business, trade and market research in collaboration with international bodies to issue analysis of policies and opportunities

Monitors research trends in natural and social sciences where disciplinary evolution and the possible genesis of new and hybrid disciplines is highlighted

Conducts cluster mapping studies among Nordic regional countries and EU nations business enterprises VS Pakistan's public and private sectors

Harnesses the intellectual capital of business school and establishes a prestigious forum for interactive research dialogue

Promotes policy dialogue, education and partnership dedicated to developing the next generation of leaders

Produces strategically and academically focused public policy research, indigenously as well as by collaboration with keen partners from Turkey

Aspires to lead our industry by offering the most diversified portfolio of intervention techniques to enhance the intellectual capital of the clients

Works for local and international collaborations and requests leading retailers of goods and services to play their role as major stakeholders

Fosters research friendly environment, organizes trainings by leading academicians and practitioners and creates possibilities by bringing academia and industry closer

Focuses on the dynamic technological trainings that prepare professionals for the modern data driven world

Aspires to fortify the development of entrepreneurship and sustains establishment of new companies contributing to the society

Academic Writing
Center (AWC)

Provides support to faculty, researchers and students who write for national and international publications and develops their academic literacy

Center for
Sustainable
Development

Serves as a platform for researchers and practitioners to advance integrated approach to address the issues relevant to sustainable development

Provides services and resources to encourage and support excellent teaching which in turn supports student engagement and learning

Center for China
Pakistan Economic
Corridor

Aims to interpret, inform and influence developments and policy making for the benefits and interests of Pakistan in all areas of the Belt and Road Initiative

Provides a platform for interacting with trading institutions and local industries and promotes interaction between mathematicians and experts of other disciplines

Center for Global
Dialogue (CGD)

A forum for initiating understanding and tolerance of diverse perspectives regarding global issues and encouraging interfaith dialogue

Enhances security through collaborative research and facilitates cooperative efforts among scholars from a broad range of disciplines and backgrounds

Dedicated to the development of strategies and solutions to problems encountered by the business community in supply chain management

Carries out cutting-edge research in human rights, international law, labor law, etc.

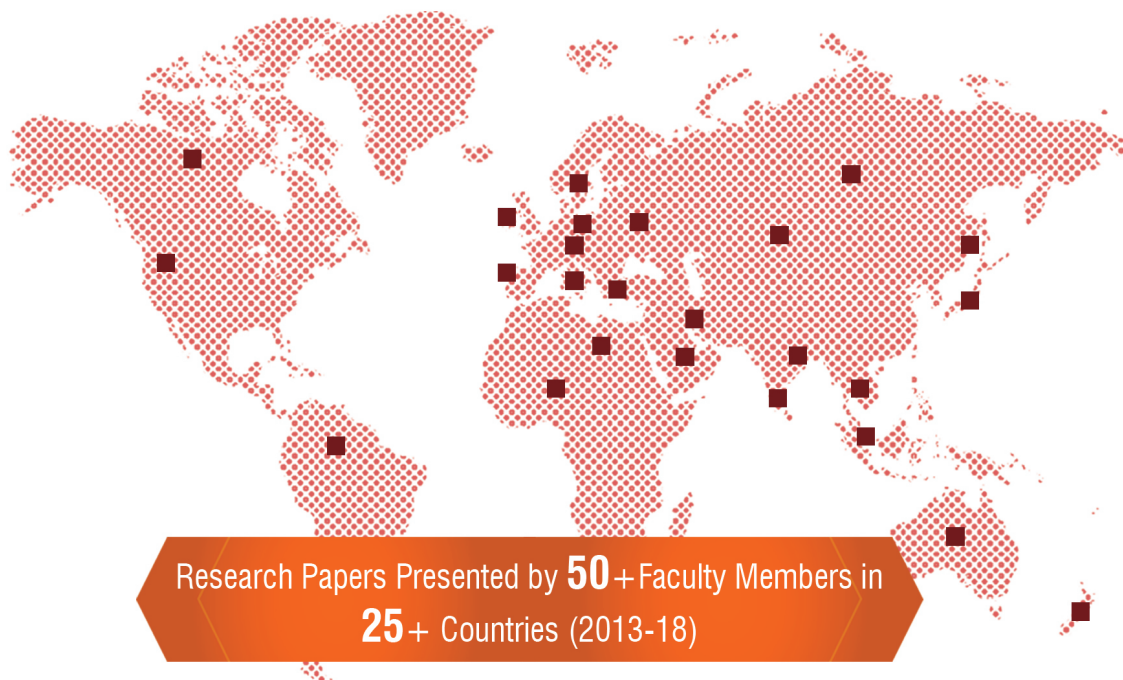

Research Culture

Research plays a critical role in the economic and social development of society. As such, universities that focus on academic research help their countries to join the global knowledge society. UMT is committed towards the promotion of research culture and actively helps faculty members and students to undertake research ventures in diverse fields. UMT students find themselves immersed in a stimulating and supporting environment among leading academics making cutting-edge discoveries.

Facilitating Research

UMT has established the Office of Research Innovation and Commercialization (ORIC) in order to facilitate research and development. ORIC has the mandate to develop an enabling environment in the University where researcher and research user can interact, work and develop cutting-edge research based technologies. ORIC serves as an excellent bridge between university research and research user of industry and society.

UMT Events and Activities 2018

More than 60 clubs and societies working under the Office of Participant Affairs cover diverse range of interests that promote an all-inclusive and transformative experience to develop dynamic learning, artistic abilities and aptitude through encouraging extracurricular and co-curricular activities in participants. They foster a campus community in a unique way to compete at national and international levels. They also inspire participants to be active learners, successful graduates and engaged global citizens.

Career Development

At UMT, we are focused on developing the skills of students to a higher level, making them more attractive to the right kind of employers. UMT has long standing links with business, industry, public sector and professional organizations.

The insights gained from them give us inputs for our courses which adds to the student experience and boosts their employability. Moreover, a specialized team of dedicated professionals provides information, advice and guidance to the students. Meetings with CEOs, mock interviews, recruitment drives, annual job fairs, mentoring sessions, and career clinics are regularly organized to facilitate the students.

Training and Development

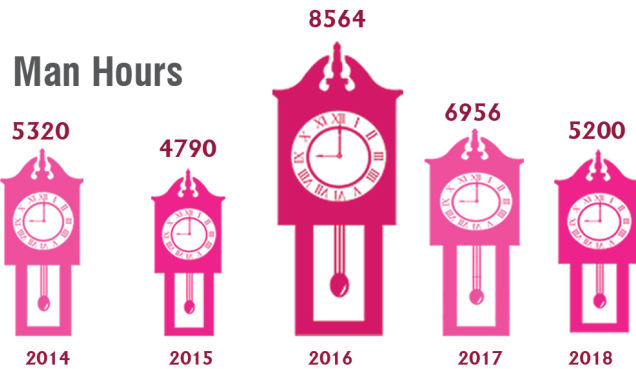

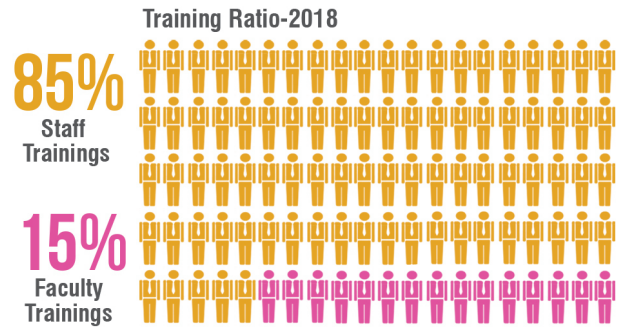

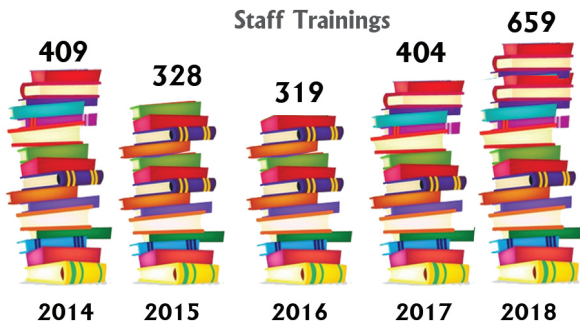

UMT believes that trainings of its employees allow the organization to reap manifold benefits. The University organizes training programs for its employees on regular basis. These trainings entail professional and technical skills catering for the on-job needs of staff and faculty at all levels. The aim of such training programs is to align the goals of the organization to the employees through their personal grooming and development. This improves job satisfaction levels while increasing their efficiency and effectiveness at work.
