2) Nestlé Foundation's Research Grants to support Research in Human Nutrition in LICs and LMICs

(Deadline: 10 May 2019)

The results of the research projects should ideally provide a basis for implementation and action which will lead to sustainable effects in the studied populations as generally applicable to the population at large. They should also enable institution strengthening and capacity building in a sustainable manner in the host country and further cooperation and collaboration between Institutions in developed and developing countries.

Priority Areas:

At present the Foundation's work is primarily concerned with human nutrition research issues dealing with:

- Maternal and child nutrition, including breastfeeding and complementary feeding,
- Macro- and micronutrient deficiencies and imbalances,
- Interactions between infection and nutrition, and
- Nutrition education and health promotion.
