IT Skills Enhancement Session for Students—Batch#3

The **IT Skills Enhancement Session – Batch #3**, held on **11 May 2026**, focused on strengthening students' digital competencies and enhancing their effective use of technology for academic and research purposes. The session introduced participants to key digital and research tools, including Turnitin, ChatGPT Pro, SmartPLS, NVivo, and academic library databases, with emphasis on their practical applications in scholarly writing, research, data analysis, and information retrieval. The initiative reflects KM-LRC's continued commitment to digital literacy, research support, and technology-enabled academic development. KM-LRC empowers students with digital skills, research capabilities, and practical knowledge for academic success.

The **IT Skills Enhancement Session—Batch #4** was held on **8 June 2026**, providing students with practical opportunities to enhance their digital literacy and IT skills. The session focused on developing essential technological competencies to support students in their academic and professional journey.

The **IT Skills Enhancement Session—Batch #5** was held on **6 July 2026**, providing students with an opportunity to enhance their digital literacy and develop essential IT skills for academic and professional growth.

Summer School Students' Visit

The Summer School Students' Visit on **9 June 2026** brought an atmosphere of curiosity and discovery to the library. Students explored the library's resources and facilities, gaining a glimpse into how the library can support their learning journey. The visit encouraged exploration, engagement, and a love for learning in a welcoming academic environment.

1 Eid Card Making Activity

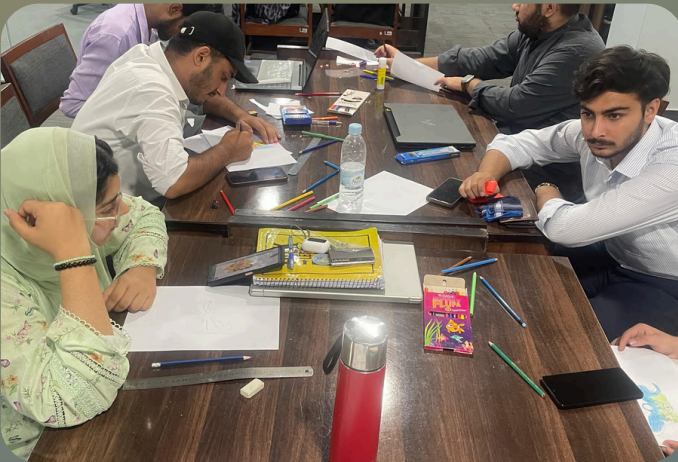

The **Eid Card Making Activity** held on **17 June 2026** brought together creativity and festive spirit as students designed colorful, heartfelt Eid cards. The activity provided a joyful opportunity to express creativity, share warm wishes, and celebrate the spirit of Eid through handmade art.

Students designed colorful Eid cards and shared heartfelt wishes.

The **Bookmark Making Activity** on **22 July 2026** added a splash of creativity to the library! Students enjoyed designing their own colorful and unique bookmarks while celebrating their love for reading. The activity encouraged creativity, self-expression, and reading habits, leaving students with a fun keepsake to accompany their reading journey.

The **Department of City & Regional Planning (CRP), UMT** welcomed the **Pakistan Council of Architects and Town Planners (PCATP)** for a **Re-Validation Visit**. The visit reviewed academic programs, teaching practices, faculty, infrastructure, and student work in line with professional standards, reaffirming CRP UMT's commitment to academic quality and professional excellence.

The **HEC Punjab Team** visited **KM LRC, UMT**, taking a closer look at the library's facilities, resources, and services. The visit provided a valuable opportunity to showcase the library's contribution to academic learning, research, and quality information services.

14th August Celebration & Activity

The **14th August Celebration at KM LRC, UMT** was filled with patriotic spirit and creativity. The library was beautifully decorated with green and white balloons and fairy lights, complemented by a special patriotic book display. Students participated in engaging activities that celebrated the spirit of independence while creating a lively and memorable atmosphere at the library. The event was honored by the presence of **Dr. Khalid Mahmood, Mr. Rafiq Awan, and Mr. Sohail Aslam**, whose encouragement added to the students' enthusiasm. Top three students received certificates and books, while an interactive Pakistan Wall gave students a space to share their thoughts and aspirations for the country.

Research Support and usage

Acquisition

During the reporting period, KM-LRC continued to provide comprehensive library, research, and digital support services to the university community. The library facilitated extensive use of books and theses, strengthened collection management, and supported academic activities through thesis services, similarity reporting, Turnitin guidance, and research assistance. The growing use of digital platforms and electronic resources further reflects KM-LRC's commitment to accessible, efficient, and research-oriented library services.
