Corporate Leaders Join PGEN Launch at UMT

OCLP facilitated the Hassan Murad School of Business (HSM) in successfully hosting the awareness and launch session of the Post Graduate Executive Nano Degrees (PGEN) on 10th September 2025. The session brought together more than 20 corporate partners, including prominent representatives from Siemens, Treet Corporation, Highnoon, Firhaji Footwear, Pure Logics, and TechmateTech. This collaborative effort marked an important step in introducing innovative executive learning opportunities while strengthening industry-academia engagement.

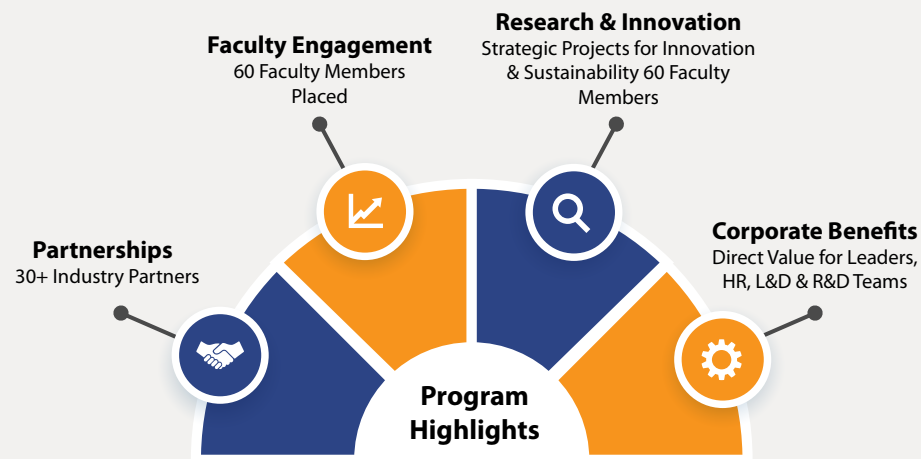

Ongoing Programs

Faculty Secondment Program (FSP) 2025

UMT's distinguished program, creating powerful collaborations that deliver real-world impact. Through this program, UMT is building powerful collaborations that:

- Foster innovation and creativity
- Address real-world industry challenges
- Develop solutions for a future-ready economy

Industry Voices on FSP

"The Faculty Secondment Program has been a valuable initiative, providing an excellent platform for knowledge sharing between academia and industry. Through this program, we were able to train faculty members on real-world industry practices, tools, and workflows. It not only enhanced their practical understanding but also strengthened collaboration with Intellicode. We believe such engagements will help bridge the gap between academic learning and market needs, creating long-term benefits for both institutions and students."

Mr. Ishtiaq Haider
Sr. Data Engineer - Intellicode

"The program proved to be highly effective, as the Secondment's contributions ensured timely completion of tasks and smooth progress. Regular discussions and innovative suggestions helped the team address challenges efficiently and meet milestones as planned. It also encouraged developers to explore creative solutions by engaging with the faculty member. Overall, it was a valuable initiative that supported both learning and project success."

Mohammad Moeen Chishty
Project Manager- XPC Global

"The secondment program was a very positive experience for me, and I appreciated UMT for starting this program. The goals were clear from the start, which made it easier to contribute meaningfully. Programs like this also give teachers a chance to see how the industry operates, what skills are most in demand, and how to shape course catalogs to match. This way, students can benefit from a more practical and relevant learning experience. Overall, I found the program highly valuable and would be happy to see it continue with a few small improvements."

HPL Success Stories

I joined the High Potential League (HPL) in 2022, during this journey, I had the opportunity to attend several impactful sessions arranged by HPL, including CV writing, interview skills, and other essential trainings required to excel in professional life. The guidance and skills I gained from these sessions boosted my confidence and prepared me for the job market. With the hard work of my professors, the prayers of my parents, and the valuable learning from HPL, I successfully secured a position as a Trainee Engineer at PEL, where I have begun my professional journey. I am truly grateful to HPL for providing me with such a platform that polished my abilities and helped me achieve this milestone in my career.

M. Waleed Aziz

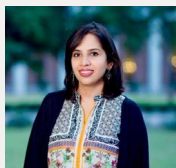

I started my entrepreneurial journey at the age of 17 when I launched my own business. Entering the business world at such a young age taught me resilience, independence, and the value of hard work. Over time, I was also invited multiple times as a guest speaker in UMT sessions, which further strengthened my confidence and communication skills. Through HPL- OCLP, I received the opportunity to intern at Carrefour. On my veryday, I felt nervous—most interns were from top universities like LUMS, NUST, and LSC, while I was the only girl representing UMT. Initially, I felt out of place, but I quickly learned that it's not the name of your university that defines you; rather, it's your dedication, skills, and commitment to excellence. I worked with full determination on my project and presentation, and by the end of the internship, my efforts paid off as I secured first position among all the interns and received a cash prize. This was one of the proudest moments of my life, proving to me that persistence and hard work can overcome any barrier. A similar achievement came during my internship at Bookme.pk, where I was honored with the Top Ambassador Title. Alongside these professional experiences, I remained dedicated to my academics, maintaining a 3.6 CGPA. My consistent performance has now led me to a unique opportunity to pursue a COOP job placement, allowing me to exempt my last semester.

During this journey, I also benefited greatly from the sessions organized by HPL, including CV writing, interview skills, and other essential trainings. These sessions prepared me to perform better in professional environments and gave me the confidence to pursue opportunities without hesitation.
