Appeal to Donate for the Mosque and Islamic Center

“Those who spend their wealth (in Allah's cause) by night and by day, in secret and in public, they shall have their reward with their Lord. On them shall be no fear nor shall they grieve.”

(Surah: Al-Baqarah Verse 274—The Noble Quran)

UMT Mosque and Islamic Center – the Rationale

The University of Management and Technology (UMT), Lahore, envisions a purpose-built campus that is complete in all dimensions of a modern university albeit with an Islamic perspective. The UMT campus, once completed, will be a place of learning equipped with top-of-the-line learning facilities but first and foremost, it is envisaged as a place where students can worship, learn and strengthen their bonding with Allah for holistic and spiritual development. In these challenging times, when the Muslim Ummah is facing numerous cultural and intellectual challenges, the spiritual advancement of future generations of Muslims assumes even greater significance.

The UMT Mosque and Community Center will serve just this purpose. Already, a qari has been appointed to teach nazira and tajweed to all those who seek spiritual fulfillment. Daily prayers, Friday and eid prayers are already being offered.

UMT – an Introduction

Established in 1990 and recognized by the Higher Education Commission (HEC) as a “W4” category (highest rank) university, UMT is also the first in the Punjab amongst medium sized universities in the general category. It offers bachelor, master and doctoral degrees in different disciplines of academia. UMT distinguishes itself with 300 full-time faculty members including 50 PhDs, 13,000+ alumni-ae and 6500 students from Pakistan and abroad.

The University has state-of-the-art science, engineering and textile laboratories, computer network, well-stocked library with over 55,000 books and digital resources to facilitate learning and research. The University also offers generous financial assistance to students. Scholarships and merit based awards are being availed by a large number of students.

The Mosque Project – the progress so far

Our mission is to design a mosque to serve as a center of spiritual, religious, educational, social and cultural learning for all the students/participants. Keeping this in view, the basic principles and prototypical standards set by our Prophet Muhammad (PBUH) for setting up a mosque, the UMT mosque, once completed, will present an architectural blend of old and contemporary Islamic art. Situated in the hub of UMT Campus, the Mosque has 70 feet multi-faceted circular folded dome rising 30 feet above the main prayer hall roof top guarded with two minarets standing tall at 100 feet; each opening up in a praying formation with reflection of “Qalam” (pen) harmonizing with the learning environment of the University.

Completion of Phase 1

Already the physical structure of the two storey purpose-built mosque has been laid out; thanks largely to the blessings of Allah, the proactive and determined efforts of the UMT community, and the generous donations offered by philanthropists and alumni. Projected cost of the entire project amounts to Rs 60 million out of which Rs 30 million has been raised and spent in completing the first phase of the construction.

Development and Enhancement – Phase II

The second phase of the project will culminate in completion and adornment of the existing infrastructure. Planned facilities of the mosque and Islamic Center include:

- Prayer facilities for up to 2,250 worshippers
- Full wheelchair access and facilities for the disabled
- Art exhibition, library, and interfaith room for dawah
- Office and meeting room
- Separate male and females ablution areas
