

Art & Science of Teaching and Learning in Higher Education

Why do you need to attend?

The Art & Science of Teaching and Learning in Higher Education (ASTLHE- Level I) is an online, asynchronous, self-paced, training program, where educators will interact with the content through related learning activities, engage in deep learning through live interaction with local/foreign practitioners, and apply principles and methodologies that are based on well-known international perspectives of teaching & learning in Higher Education. The program is designed to enhance and improve one's understanding of what elements motivate and engage the students to achieve the desired learning outcomes. This becomes all the more important when designing and delivering courses for online, hybrid or mix-mode instructional pedagogies. Course alignment, the international key that defines the quality of any course, has been used effectively and throughout in the design of this course. With ASTLHE you will be able to:

- Enhance learning through pedagogical innovations
- Explore online, blended or mix-mode modalities
- Build a culturally inclusive environment
- Instill confidence in your students
- Reinvigorate your teaching
- Promote lifelong learning
- Lecture with impact

HOW WILL YOU BE ENGAGED?

This course will employ BASICS Methodology

01

The Art & Science of Teaching and Learning in Higher Education (ASTLHE-Level I) is an online, asynchronous, self-paced, training program.

Course Start Date
Sept 20, 2021

Who Should Apply?
All Recent Graduates And Teachers

Last Date to Register
Sept 15, 2021

COURSE OUTLINE

SESSION 01

Effective Communication is
The Key to All Learning. *Maximize it!*

SESSION 02

The **Art & Science** of Verbal
&
Non-Verbal **Communication**

SESSION 03

Participation Strategies Are
Tools to *Maximize Learning*

SESSION 04

Develop **Critical Thinking** As
The **Bedrock Foundation** of Learning

SESSION 05

Differentiated Instructions (**Customization**)
Maximizes Engagement & Enhances Learning

SESSION 06

Course Educational Objectives Dictate
Course Design & Structure

SESSION 07

Webinar/Live Lectures Are Powerful Motivational
Tools in the Hands of a Pro. **Be a Pro**
