

University of Management and Technology

Course Outline

Course code: ET 103

Course title: Electronic Fundamentals

Program	BSc Aircraft Maintenance Engineering Technology	
Credit Hours	02+01	
Duration	15 weeks	
Prerequisites	Nil	
Resource Person	Arslan Asim	
Counseling Timing (Room#)	Tuesday	14:00 to 17:00
	Thursday	14:00 to 17:00
	Friday	14:00 to 17:00
Contact	arslan.asim@umt.edu.pk

Date.....

Learning Objective:

Upon successful completion of the course, the student should be able to:

S No	CLO Statement	PLO	Learning Domain and level
1.	Describe the working of diodes and amplifier	2	C1
2.	Analyze and compare the characteristics of amplifier types and integrated circuits.	4	C4
3.	Explain the working principle of servomechanisms	1	C2
4.	Conduct and Interpret the results of experiments and demonstrations of electronic circuit principles.	3	P3
5.	Effectively communicate experiment results through both written reports and oral Presentations.	10	P3

1. CLO – PLO MAPPING:

CLOs	PLOs											
	Engineering Knowledge	Problem Analysis	Design / Development of Solutions	Investigation	Modern Tool Usage	The Engineering Technologist and Society	Environment and Sustainability	Ethics	Individual and Team Work	Communication	Project Management	Lifelong Learning
	1	2	3	4	5	6	7	8	9	10	11	12
1		C1										
2				C4								
3	C2											
4			P3									
5										P3		

Learning Methodology:

- The teaching of the course will be via a series of lectures. This will be complemented by the use of textbook, and an extensive range of web resources plus handouts/articles and video clips.
- Participants should expect 5-6 class activities during the semester which will form the basis for evaluation (viva). 2 assignments, individual/group presentations and quizzes. These activities will be complemented with discussions and analysis to strengthen the learning.

Recommended Text Books:

1. "Electronic Fundamentals" by AERO-BildungGermany [2016]

Reference Books:

1. "Electronic Fundamentals"-Aviation Maintenance Technician Certification Series by Aircraft Technical Book Company

Grade Evaluation Criteria

Theory:

Marks Evaluation	Marks in percentage
Quizzes (x6)	15%
Assignments (x2)	10%
Evaluation(Viva)	5%
Presentation	5%
Mid Term Examination	25%
End Term Examination	40%
Total	100 %

Practical:

Marks Evaluation	Marks Percentage
Class activity	5%
Team work	5%
Quizzes	15%
Viva	5%
Lab Report	10%
Final Evaluation	60%
Total	100%

Calendar of Course contents to be covered during semester

Course code: ET 103

Course title: Electronic Fundamentals

Theory:-

LECTURE WISE COURSE BREAKDOWN					
Lec No	Description	Ref	Quizzes	Assignment	CLO No
1 – 2	Introduction to Electronics Introduction to Semi-conductors	4.1.1			
3-5	Diodes <ul style="list-style-type: none"> • The P-N junction • Rectifier/Normal Diode • Half and Full Wave Rectifier • Diode Testing • Diode Types 	4.1.2	01	01	01
6	Quiz				
7-10	Transistors <ul style="list-style-type: none"> • The NPN and PNP Transistor • Transistor as a switch and voltage amplifier • Amplifier Types 	4.1.3	02	01	01
11	Quiz				
12-15	Transistors <ul style="list-style-type: none"> • Amplifier Classes • Multivibrators • MOSFETS 	4.1.3		01	02
16	Mid Term Examination				
17 – 19	Integrated Circuits <ul style="list-style-type: none"> • Operational Amplifiers • Operational Amplifier Parameters and Types • Operational Amplifier Troubleshooting 	4.14	03	02	02
20-22	Integrated Circuits <ul style="list-style-type: none"> • Comparators • The integrator • Schmitt Trigger • Integrated Circuit Technologies 				

23	Circuit Boards	4.2			
24	Quiz				
25-28	Servomechanisms	4.3	04	02	03
29	Quiz				
30	Revision				
END SEMESTER EXAMINATION					

Practical:

Sr. No	Lab Experiments	CLO
1	Diode Characteristics	4,5
2	Series and Parallel Diode Configuration	
3	Half-Wave Rectification	
4	Full-Wave Rectification	
5	Clipping Circuits	
6	Clamping Circuits	
7	Light-Emitting and Zener Diode	
8	Bipolar Junction Transistor (BJT) Characteristics	
9	Fixed and Voltage Divider Bias of BJTs	
10	Emitter and Collector Feedback Bias of BJTs	
11	Design of BJT Bias Circuits	
12	MOSFET DC Bias	
13	Verification of Latch and Flip Flop operation using gates and flip flop's IC	

Class Policy

STUDENTS ARE REQUIRED TO READ AND UNDERSTAND ALL ITEMS OUTLINED IN THE PARTICIPANT HANDBOOK

CLASS ATTENDANCE: Students need to be in class at the assigned time. After 10 minutes past the assigned time, the students will be marked absent.

TURN OFF MOBILE PHONE! It is unprofessional to be texting or otherwise.

READ EMAILS! Participants should regularly check their university emails accounts regularly and respond accordingly. Students would be responsible if they miss a deadline because of not reading the emails.

CLASS ATTENDANCE POLICY: A minimum of 80% attendance is required for a participant to be eligible to sit in the final examination. Being sick and going to weddings is absence and will not be counted as present. Participants with less than 80% of attendance in a course will not be allowed to take end term exams. International students who will be leaving for visa during semester should not use any days off except for visa trip to avoid reaching short attendance.

MOODLE: UMT –LMS (Moodle) is an Open Source Course Management System (CMS), also known as a learning Management System (LMS). Participants should regularly visit the course website on MOODLE Course Management system, and fully benefit from its capabilities. In case of any problem while using MOODLE, visit <http://oit.umt.edu.pk/moodle>. For queries email moodle@umt.edu.pk

HARASSMENT POLICY: Sexual or any other harassment is prohibited and is constituted as punishable offence. Sexual or any other harassment of any participant will not be tolerated. All actions categorized as sexual or any other harassment when done physically or verbally would also be considered as sexual harassment when done using electronic media such as computers, mobiles, internet, emails etc.

USE OF UNFAIR MEANS/ HONESTY POLICY: Any participant found using unfair means or assisting another participant during a class test/quiz, assignments or examination would be liable to disciplinary action.

PLAGIARISM POLICY: All students are required to attach a “Turnitin” report on every assignment, big or small. Any student who attempts to bypass “Turnitin” will receive “F” grade which will count towards the CGPA. The participants submit the plagiarism report to the resource person with every assignment, report, project, thesis etc. If student attempts to cheat Turnitin, a second “F” will be awarded that will count towards the CGPA. There are special rules on plagiarism for final reports etc. all outlined in your handbook.

COURSE WITHDRAWAL POLICY: Students may withdraw from a course till the end of the 12th week of the semester. Consequently, grade ‘W’ will be awarded to the student which shall have no impact on the

calculation of the GPA of the student. A Student withdrawing after the 12th week shall be automatically awarded "F" grade which shall count in the GPA.

COMMUNICATION OF RESULTS: The results of quizzes and assignments are communicated to the participants during the semester and answer books are returned. It is the responsibility of the course instructor to keep the participants informed about his/her progress during the semester. The course instructor will inform a participant at least one week before the final examination related to his or her performance in the course.
