GREAT PLACE. GREAT LEARNING. GREAT FUTURE

■ DR HASAN SOHAIB MURAD

FOUNDER, ILM TRUST AND UMT

Join us to be great

Why shouldn't you be Great? Even better? Why are you not great? How can you be great? Almost all humans can easily claim to be good, but only a few dream of becoming great, and a very few actually achieve true greatness. Why?

The greatest loss that can happen to a person is the lack of ambition to become great. That is human potential gone unchecked, unharnessed. Then comes the loss of those who become casualty in search of greatness. This is different from failures on the road to become great which turns into only another learning opportunity. Imagine how great a human being can be? How noble and valuable a human being can be? How purposeful and productive? How creative and zestful? How unique and beautiful? How trustworthy and sincere? How crystalline and logical? How passionate and awesome?

University of Management and Technology is here to help you to become great, truly exceptional. The resource persons act first as learners and then let the participants turn into their leaders. There are many good institutions around. Trace the road of the one that can launch you into the orbit of greatness. The one interested in you developing as a whole, a full person, capable of submerging the macrocosm in the microcosm of the self, and defining excellence and refining attributes to the extent that they mirror the pleasure, love, and blessing of Allah. Select an institution which is growing to help you reform your attitude, enlighten your mindset, build your knowledge, develop your application, refine your character, and sharpen your practice.

You walk in with power of intention. You go out with the portfolio of all that it takes to achieve the success here and the ultimate success hereafter. Beyond degree, what determines your future is your invaluable treasure of self-image, enriched and enlightened, driven to life-long learning. Your future is your family's future, your nation's future, your Ummah's future, and your world's future. Infinite possibilities and endless vistas at UMT draw your attention to your own selves and demand that you give to yourself what it deserves the most. Greatness. Help us make you Great!

RECTOR UMT

Welcome by Rector

Welcome to UMT, a university that is all about transforming innovative ideas into tangible solutions under the mentorship of some of the finest faculty in the region. It is a great time to be in UMT as the University is all set to embark on a new chapter in its 28-year enviable journey of progress and excellence in academic innovation.

We live in an increasingly complex world where the future is unpredictable and the intertwining of market forces and technology has created an unprecedented impact on higher education globally. The future of developing countries is inextricably linked up with the extent to which higher education translates into economic development and valuable human capital in the knowledge era. How universities perform as key drivers for increased research capacity, innovation, scientific and industrial output, and economic competitiveness not only determines the quality of higher education but also paves the way for national prosperity and wellbeing. That is why universities have been recognized as the pivot of knowledge economies and entrepreneurial growth. As such, the future of the world hinges on the capabilities of university students like you and how well prepared you are to contribute to a knowledge-intensive society. UMT is providing a learning experience that prepares you to meet the challenges of the future.

With an outstanding legacy of academic excellence and diversity in academic disciplines that has already established its credentials as a premier General University in Pakistan, UMT has already made its mark on the higher education landscape. Our vision for the future of UMT is to transform the University into a powerhouse of learning and innovation nationally and regionally, and strengthen its overall rankings in specific domains. We remain committed to nurturing and challenging your spirit and intellect; be assured that once you have become a UMT graduate, you will be ready to face the uncertainties of the future with the confidence and enthusiasm of those who are equipped to be world changers, explorers, innovators, discoverers, and leaders.

MESSAGE FROM THE DIRECTOR CAMPUS

■ PROF DR ZAFARULLAH KHAN SI DIRECTOR CAMPUS

Join Us And Realise The Difference.

It gives me immense pleasure in stating that the University of Management and Technology is very much among the leading universities not only of Pakistan but of the region as per QS Asia University Rankings.

Now UMT has a strong foothold in the disciplines of Computer Science, Software Engineering, and Business and Technology Development in comparison to other major universities of Pakistan. UMT is always in search of the best faculty from all over Pakistan and abroad. It is considered an honor and a huge achievement to have over 215 PhD faculty members on board for teaching and they are also involved in research activities diligently in both campuses, Lahore and Sialkot.

UMT Sialkot Campus started its journey in 2012, as the first ever HEC recognized university campus in the vicinity of Sialkot, offering professional education in fields as per the requirements of the local community, since the city is internationally known as an industrial one.

Today UMT Sialkot Campus, with the hard work of its faculty and management, has Electrical and Mechanical Engineering departments accredited by the Pakistan Engineering Council (PEC), and Computer Science and Software Engineering departments accredited by the National Computing Education Accreditation Council (NCEAC).

The faculty and the management are making great efforts vigorously to provide the best possible solutions to fulfill the academic requirements, and welcome fresh and innovative ideas while keeping the participants motivated on top-priority. Also, the focus of our educational strategies have invariably been to provide our students with such opportunities and environment in

which they can sharpen their skills and develop their personality in a positive manner.

Close relationships between our faculty members and students ensure that attention is given to each student's academic success which is one of the hallmarks of our policies. Our staff and faculty promote a holistic approach to academic advising, characterized by students' active engagement, followed by the students' deliberate decision making about their future plans.

UMT is also committed and always takes care of the cultural and religious affairs by arranging lectures on Islamic thoughts and culture by leading scholars, in order to keep participants well-informed and updated. I assure you that we are leaving no stone unturned in the process of imparting and ensuring the best possible higher education environment in UMT Sialkot Campus.

I leave you with two quotations:

“Good Things come to those who Believe, Better things come to those who are Patient and the Best things come to those who Don't Give Up”

“Never stop learning, because life never stops teaching.”

Prof Dr Zafarullah Khan SI
Director UMT Sialkot Campus

About UMT

UMT is a project of Institute of Leadership and Management (ILM) Trust. ILM was established in 1990 by leading educationists, professionals, and industrialists with an aim to enhance the organizational and individual effectiveness. Guided by the noble mission of helping others in actualizing their limitless human potential to its finest shape, ILM sought to respond to the challenges of information-based economy, globalization, and ever increasing complexity.

UMT – now an independent, not-for-profit, private institution of higher learning – received her degree-granting charter first as the Institute of Management and Technology (IMT) in 2002 through an Act of the Assembly of the Punjab. Later, on 16 June 2004, IMT became University of Management and Technology through the passing of a similar Act by the Punjab Assembly. UMT is recognized by the Higher Education Commission (HEC) of Pakistan as a 'W4' category (highest rank) university.

In 2015, UMT celebrated 25 years of 'Emergence with Eminence' in recognition of its contribution to the promotion of higher education in Pakistan. Over the years, UMT has become renowned for its highly rated faculty members who are graduates of top universities of the world with vast experience of the corporate and business sector. That is why our graduates are hired by leading national and international organizations on account of the market driven and practical education imparted to them by our highly qualified faculty members. UMT provided exceptional professional development and training opportunity to selected faculty members at George Mason University, USA, in 2016. Our faculty members are also recipients of 'Best University Teacher Awards' by the HEC for 3 consecutive years.

UMT has come a long way since its inception. There has been tremendous growth in academic disciplines and infrastructure. In addition to the social sciences programs, over the years, UMT has also launched new programs in response to market demands. These programs have attracted large number of students and are running successfully. UMT School of Business and Economics (SBE) has SAQS accreditation by the Association of Management Development Institutions in South Asia (AMDISA), while its business programs have been accredited by National Business Education Accreditation Council (NBEAC). SBE is ranked among the top 5 business schools in Pakistan by NBEAC. SBE is in academic alliance with SAP, ORACLE, Microsoft Dynamics and IBM which distinguishes it as one of the best schools of Pakistan. UMT has also won international recognition for scientific research. It was among the top 4 in scientific research in Pakistan in Nature Index Table 2016. Pakistan Council of Architects and Town Planners (PCATP) has accredited Bachelor of Architecture (BArch) and Bachelor of City and Regional Planning (BS CRP) programs at UMT. The courses of study at UMT are designed to develop the skills of students in specific areas that are important for employers. As such, UMT ensures that all academic programs are relevant to real-world business needs and guide students towards a successful future. This journey of excellence is on to keep our tradition of leading and learning.

About UMT Sialkot

UMT is the first private sector university to establish HEC approved sub campus in Sialkot, the city also known as 'The Great City of Iqbal' which is highly enriched in various sectors that include modern industries such as surgical instruments production, flour mill, readymade garments, sporting goods, leather goods and musical instruments. It is also worth mentioning that Sialkot has the distinction of having a private International Airport and 'SIAL' airlines owned by Sialkot Chamber of Commerce and Industry.

UMT Sialkot Campus is housed in beautifully constructed architectural iconic tower which is a pride itself for being the tallest tower in the town, named as 'Pride of Sialkot.' UMT Sialkot Campus was formally opened on May 2, 2012. The 20-kanal campus provides several multimedia classrooms, laboratories, computer labs equipped with state-of-the-art computers, campus wide Wi-Fi internet facility, and well-stocked learning resources. UMT Sialkot Campus is serving the higher education needs of the learning community of this region. The campus is situated in downtown and well-furnished with academic standards and requirements, including multimedia classrooms and high-tech computer labs.

We are honored to achieve another milestone in the history of UMT Sialkot Campus, embarking on expanding a new campus, "The 'Iqbal Campus' at Daska Road, Sialkot. It is an expanded and upgraded campus, in order to accommodate more students with quality education tailored to their individual needs and aspirations. UMT aims to prepare students for rigorous and globally focused education in line with the personal, professional and ethical norms in order to enable our students succeed and standout in their future endeavors.

UMT offers undergraduate, graduate, and MS/MPhil level programs. More than 2200+ students are currently studying at the Sialkot Campus. The Sialkot Campus provides excellent atmosphere conducive for meaningful learning and valuable research.
