## Chairman's Message

Schools showcase a nation's past, present, and future. They represent the hopes of parents, capitalize upon the aspirations of the very young generation, and respond to the needs and challenges facing the society. ILM Trust initiated the project of The Knowledge School (TKS) to contribute towards the development of new generation, turning them into self-directed life-long learners. The students of TKS become aware of the purpose of life and they discover their unique strengths and talents for refinement. We are building a knowledge community to lead Pakistan. Human beings know no limits to excel and each generation surpass the previous in all respect.

At TKS, we aim at becoming a very reliable partner of the parents and society to make each student a truly great person with extreme motivation, creative ideas and supreme talents so that they can achieve extraordinary goals and objectives.

## Country Director's Message

Education is a complete process that leads to the attainment of a child's full potential. Our endeavor is to equip our younger generation with standardized quality education, helping every child to stretch his inherent learning competencies through a self-discovery process.

At TKS, the uniqueness of every child is recognized, nurtured and treasured. To provide students with intellectual stimulation and physical robustness, TKS curriculum has been meticulously planned and reviewed while remaining in congruence with latest educational trends being practiced globally.

TKS Head Office has a team of professionals and experts consistently working in close coordination with our campuses, to update them with modern teaching techniques.

We assure parents that TKS is a quality driven educational institute where:

- Excellence is driven by values,
- Success is strengthened by ethics and,
- Modernity is fortified by culture.

Looking forward to you joining us in this educational journey!

**Brig. (Retd) Shahid Akram Kardar**

*Country Director*

*The Knowledge School Network*

## Group Profile

Institute of Leadership and Management (ILM) Trust, founded in 1990, has become a distinctive player in the field of human development and education not only in Pakistan but also internationally. ILM Trust was established by leading educationists, professionals, and industrialists with an aim to enhance the organizational and individual effectiveness. In a span of only two decades, ILM Trust has expanded horizontally and vertically and today it owns a portfolio of businesses in real estate, construction, energy and banking with education being the backbone.

Foresight, innovation, energy, and competitive strategies have helped the Trust to take advantage of emerging opportunities. More importantly, the Trust is now reputed and experienced in building and sustaining strong and effective business partnerships based upon trust, co-determination and mutual benefit.

*Learning for Leadership*

**CMD**

Center for Management Development

## **University of Management and Technology (UMT)**

UMT, one of the premier higher education facilities in Pakistan is an urban, general university that is dedicated to excellence in teaching and research. UMT offers a wide range of doctoral, masters and bachelors degree programs in ten schools and three institutes – all functioning under the umbrella of UMT. All academic programs being offered by the University are recognized by the HEC and conform to international standards.

## **ILM Group of Colleges**

In 2008, ILM Trust launched another of its educational projects namely ILM Colleges with a view to meet the academic needs of students and building the nation. Ever since its inception, ILM Colleges have successfully branched out a network of colleges for boys and girls throughout the country with a major concentration in Punjab province. Like other projects, ILM Colleges combines state-of-the-art educational facilities with premium faculty further proven in students' achievements. ILM Colleges' alumni go on to leading institutes of commerce, business, medical and engineering sciences for further education.

## The Knowledge School

The importance of childhood education is increasingly gaining prominence and being recognized by various governmental policies and valued by society at large. The formative years that is, three years and over are the most significant years in terms of characters building and inculcating a sound value system in child. Certainly, the learning in these years lay the foundation for future academic success.

ILM Trust realized this and in 2008 launched a nationwide project of schools – The Knowledge School (TKS) based on a strategic partnership with enthusiastic individuals willing to invest and further the cause of education. In a short span of time, TKS has developed a sizable network of operative schools throughout Pakistan.

TKS is committed to lifting the standard of education and social responsibility of this generation of students for the future of humanity. Looking towards that future, TKS intends to link its prosperity to nurture the young minds by creating educational opportunities where they would otherwise not exist.

## The Vision

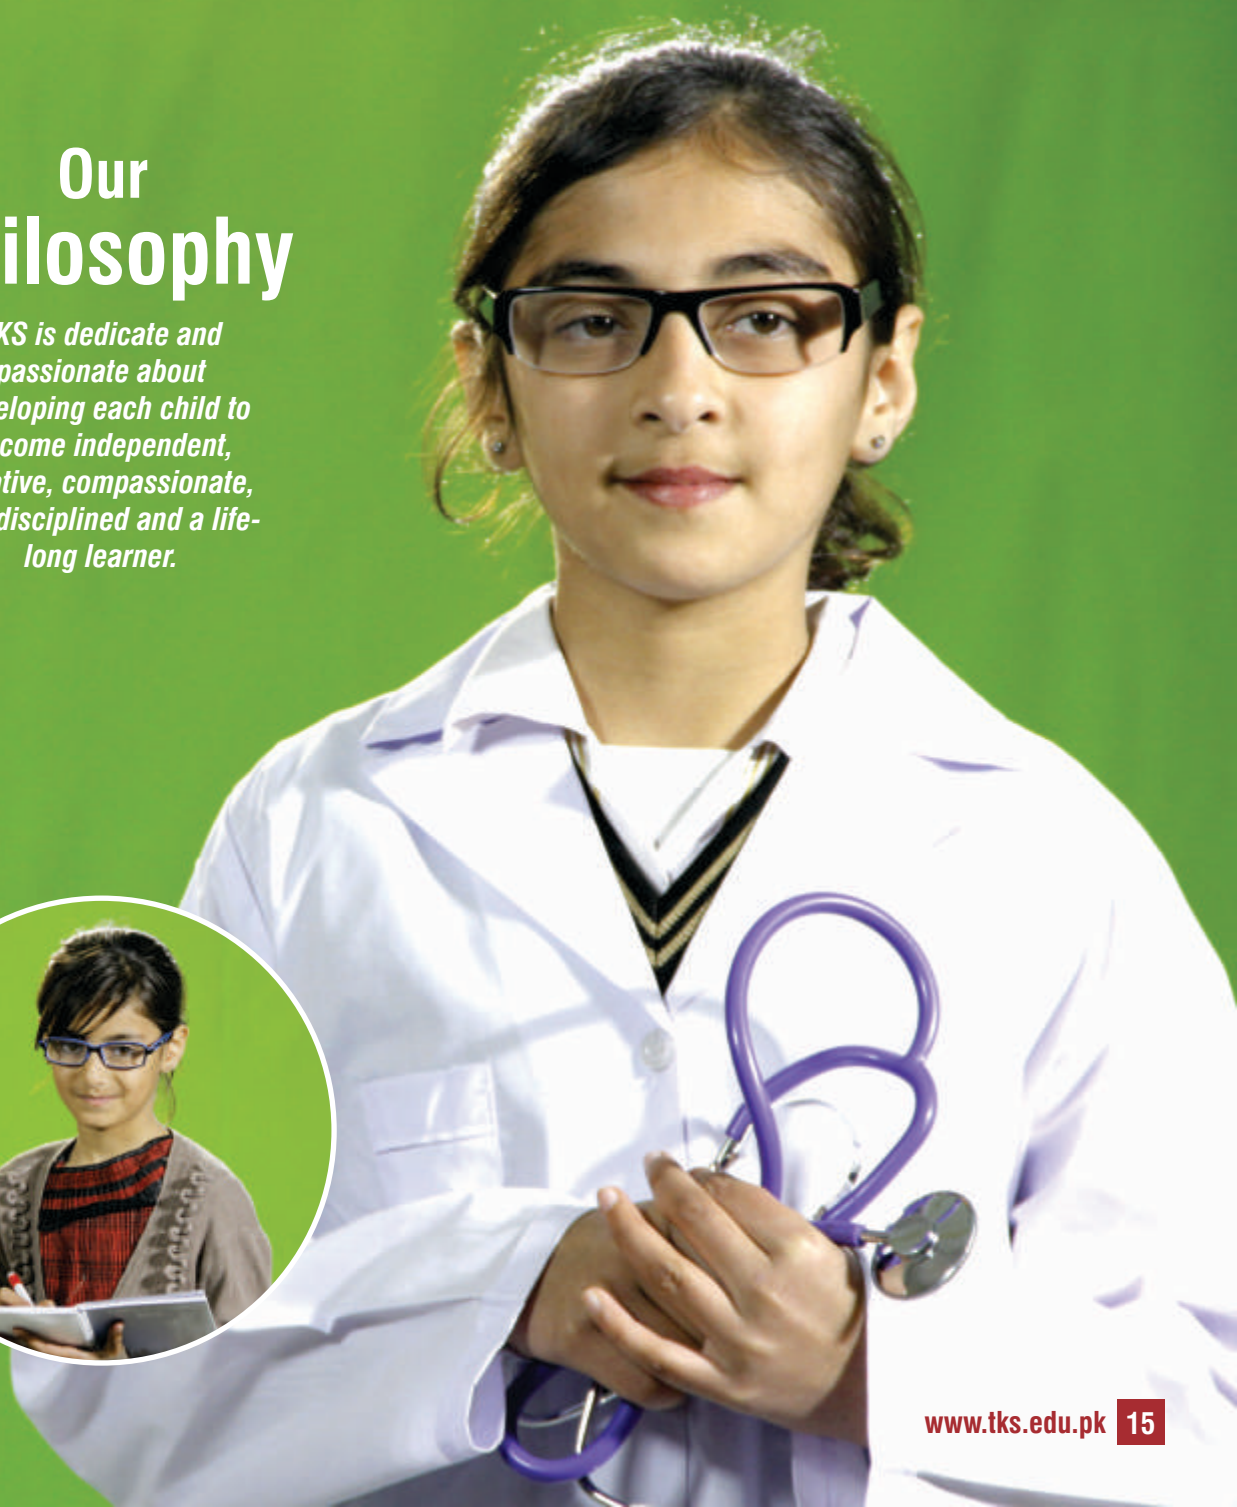

TKS strives to be a globally recognized center of educational excellence whose students consistently exceed expectations and are committed to addressing the needs of our world.

## The Mission

To enable our students to realize their potential through exceptional opportunities, within a nurturing community which equips them to flourish in life and to make a difference for good.

# Our Philosophy

*TKS is dedicate and  
passionate about  
developing each child to  
become independent,  
creative, compassionate,  
self-disciplined and a life-  
long learner.*

# TKS

## Committed to Student Success

### **Quality Education**

The Knowledge School serves as a center for knowledge development. Our core curriculum is designed to meet the international teaching-learning standards and help students to develop superior scholastic aptitude. TKS provides an environment for educational, social and emotional growth. The high quality of education at TKS not only prepare students in achieving highest standard of academic excellence but also make them aware of social responsibilities to the community.

### **Critical Thinking**

Critical thinking and argumentative reasoning both in speech and writing is a crucial element of excellent education. Critical thinking lays foundation of innovation. At TKS, we prepare students to think deeply and understand complex ideas with sound reasoning that helps them to progress in both academic and professional life.

### **Parent-Teacher Engagement**

TKS realizes that the manner in which schools communicate and interact with parents affects the extent and quality of parents' home involvement with their children's learning. For example, schools that communicate bad news about student performance more often than recognizing

students' excellence will discourage parent involvement by making parents feel they cannot effectively help their children.

At TKS, parent-teacher meetings are held on a regular basis whereby the parents also benefit from being involved in their children's education by getting ideas from school on how to help and support their children, and by learning more about the school's academic program and how it works. Most importantly, parents' benefit by becoming more confident about the value of their involvement in school and develop a greater appreciation for the important role they play in their children's education.

### **Teachers' Professional Development**

At TKS, we realize that a teacher is the single most important resource during the discourse the of education. For this purpose, a special teachers training team is dedicated for the sole purpose of conducting regular training sessions with the teachers associated at TKS's campuses nationwide. Our main aim is to encourage the teachers to engage in participative teaching so that a confident child is nurtured. Also, teachers are equipped with the latest learning and teaching methodologies applied internationally in these training seminars.

## Pre-School

Pre-School is the most crucial phase for learning and development. Kids need meticulous attention at this phase of learning. The Pre-School at TKS consist of Play group, Nursery and Prep grades. TKS's focus is to provide a strong educational base to students at pre-school level. Our teachers are well trained by national and international instructors to provide a good learning experience to our students. Pre-School teachers are specially trained to provide a friendly environment to kids and we are proud to say that our teachers at pre-school are well trained and dedicated. At TKS, our aim is to become a second home for kids where they develop both cognitive and physical aspects of learning.

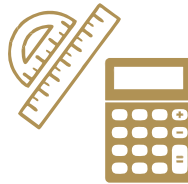

## Junior School

The Junior School years are of great developmental transition and consist of grade one to fifth. Students experience significant changes in both their academic and personal life, making it important to handle carefully the needs of children during these years. In Junior School, we ensure effective learning through planned curriculum and project based class activities. Our pedagogy approach ensures excellence and creativity in our students. We encourage participatory and collaborative learning environment in all of TKS campuses, pushing students to take on intellectual challenges.

## Senior School

The Senior School is an advance level of learning and consists of sixth to tenth grade. The Senior School is a time when students develop complex ideas and concepts. Effective teaching methodologies by our teachers help students to ace senior school and connect the dots of complicated real-time problems and how to resolve them effectively. We immerse our students in STEM (Science, Technology, Engineering and Mathematics) disciplines, so that they can make sense of the world. At TKS we also focus to actively engage students in project-based, collaborative learning environments which incorporate and promote the use of higher level thinking, digital technologies, content-driven problem solving skills, and alternative assessments in every class.

# TKS

## More Than Just Teaching

## **Development of the Whole Child**

At TKS, we hold a strong belief in the value of learning outside the classroom. The development of the child as a whole is paramount and we recognise that different students are motivated by different experiences. As students progress through TKS, they are encouraged to take advantage of the many opportunities that are on offer from the arts, sports and co-curricular.

## **A Value-Driven Education**

We know that academic achievement is important because academic qualifications are the passport to accessing a better life and good university options, but we believe a value-driven education is equally vital. At TKS we help students to develop their character, values, talents and personal leadership to achieve their full potential as global citizens and leaders of the future. They are not symbolic – we live and breathe them. Students learn to celebrate diversity with a spirit of understanding and tolerance, to develop a positive regard and awareness of other people and cultures.

## **Secure and Healthy Environment**

At TKS, we believe that students can only learn in a healthy and safe environment. We primarily focus on providing a safe learning community for both students and teachers. A culture of mutual respect and corporations prevails at all TKS campuses. Any form of verbal, physical, or cyber abuse and bullying is highly prohibited in all of its campuses. We believe that a healthy and secure learning environment boosts creativity, innovation and a care community and we promote these values within TKS's system.

## **Outstanding Sports and Fitness Facilities**

TKS emphasizes on physical education programs and outdoor activities and the intended purpose of these activities is to teach and endorse long-term physical and mental health. The schools offer a range of sports activities from traditional competitive intramural to club sports activities to meet the diverse needs of students.

## **Focus on Extra Curricular Activities**

At TKS students are encouraged to engage in a reasoned debate, question assumptions and strengthen their own voices. We aim to achieve this goal by offering wide range of extracurricular activities such as essay writing, debate competitions, mural projects, and general knowledge based quizzes, among many others. These activities enhance students experience and help to explore interests.

## **Outdoor Education (School Field Trips)**

Our aim is to provide a balanced educational program promoting both theory and practical implications. We organize various educational trips to give hands-on industry experience to our students. The outdoor educational programs boost our students learning skills and develop a supportive learning community.

# Join TKS

## Admission Procedure

- Step 1** Parents seeking admission of their children must fill the Registration Form for each child. They must also obtain a copy of school prospectus from school.
- Step 2** Appear on date of admission test and interview indicated on the Registration Slip. Admission is based on merit, availability of seats, and sibling reference.
- Step 3** Suitable candidates are issued Admission Forms. Once the admission is approved by the Principal necessary Fee Challan is issued.

However, admission will be confirmed on deposit of fee as well as receipt of the following:

### **For Fresh Admission**

Parent's / Guardian's CNIC Copy  
Birth Certificate of the Child  
Two 1"x1" size latest photographs of the student

### **For Migrating Students**

Parent's / Guardian's CNIC Copy  
Two 1"x1" size latest photographs of the student  
School Leaving Certificate  
Last Progress Report

## General Rules of Good Order and Discipline

The Knowledge Schools aims to provide quality education and inculcating sound moral and social values among the students. The school has the primary responsibility to facilitate the environment which is congenial to learning. On the other hand, the students may have tendencies to deviate from their main objectives and transgress their disciplinary obligations. The following rules of good order and discipline will therefore be in force:

1. Students should be neatly dressed in school uniform and should have well managed hair.
2. Students should maintain good personal hygiene and keep their fingernails trimmed and clean.
3. Students are not allowed to leave school premises without the permission of competent authority.
4. Leave application should be endorsed by parents and submitted in advance.
5. Cheating, stealing, scuffling with fellow students, telling lies, misbehaving are all breach of discipline.
6. Students are not allowed to wear jewelry or bring large sums of money, or drugs, photographs, magazines, CDs, camera, radio set, cell phone, or weapon to school.
7. Writing letters to fellow students or receiving uncalled for mails in the school is deemed objectionable.
8. Students should be respectful to the school staff and must communicate any concerns to the teachers or Principal.

## Role of Parents

1. Education of children is the joint responsibility of parents/guardians and the school. Considering the role of parents/guardians in this regard following guidelines are important to follow:
2. Parents are to provide a congenial atmosphere to their children/wards at home for their studies and ensure that they do their homework regularly.
3. The parents/guardians should keep in touch with the school, so as to keep abreast of the performance of their children/wards in academics and other activities.
4. They must attend parent-teacher meetings.
5. They are required to cooperate with the institution in matters regarding discipline, uniform, attendance, punctuality, and general behavior of their children.
6. They are to ensure that their children/wards fully abide by the school rules and regulations.
7. They must keep checking up on their children with respect to their performance in tests and examinations.
8. They are to abide by the policies and regulations of the institution with respect to educational methods, promotions/detentions and sendups for the BISE examinations.
9. Parents/guardians are not to send their children/wards to school in case they are suffering from any contagious disease.
10. They are to make complaints, if any, directly to principal and not to the teacher concerned.
11. They are not to visit classrooms and academic blocks during the school hours.
12. They are to read and sign any notice, rules and regulations and written warnings sent or intimated to them by the institution.
13. They are to ensure timely payment of school dues.

## Instructions

This registration form must be completed in all respects and returned to the school office along with copies of the child's last school report and birth certificate.

- Both Inter and Intra City Transfer facility is available within the School Network.
- Each child will be registered for admission individually and separately.
- The school does not take any responsibility for postal delays or consequences thereof.
- The school reserves all rights of review and increase in the registration fee, tuition fee and all other fees, charges and deposits. Consent of parents is not necessary. However, prior notice will be served.
- Sibling discount is available as per rules.
- The school may shift its premises to another location without parents' prior consent. They will, however, be intimated in advance.
- The school has absolute discretion to regulate the curriculum, course books and other teaching materials in order to provide quality education.
- The school reserves the right to accept or refuse registration of a child without assigning any reason.
- Parents seeking admission of their ward(s) must fill in Registration Form (annexed in the prospectus) for each child.
