## Chairman's Message

Schools showcase a nation's past, present, and future. They represent the hopes of parents, capitalize upon the aspirations of the very young generation, and respond to the needs and challenges facing society. ILM Trust initiated the project of The Knowledge School (TKS) to contribute towards the development of the new generation, turning them into self-directed, life-long learners. The students of TKS become aware of the purpose of life and they discover their unique strengths and talents for refinement. We are building a knowledge community to lead Pakistan. Human beings know no limits to excel and each generation surpasses the previous in all aspects.

At TKS, we aim to become a very reliable partner of parents and society to make each student a truly great person with extreme motivation, creative ideas and supreme talents so that they can achieve extraordinary goals and objectives.

**Dr Hasan Sohaib Murad (Shaheed)**

*Chairman*

*The Knowledge School Network*

## President's Message

School is not just a place where you offer learning, but is a platform to revolutionize the whole community. If we want to create a stronger, more compassionate and idealistic education system, we must focus on the holistic development of students in order to make them progressive thinkers. We must address their holistic needs and ensure that each student acquires the basic core values that allow them to become good human beings, good Muslims and responsible citizens of Pakistan. To ingrain humanitarian values in students, we encourage them to get involved in community services to make them realize their responsibility towards the community. Teaching is a sacred profession and with it comes great responsibility. The Knowledge School Network understands the gravity of the charge set upon them, which is reflected in our top-tier academic practices, our curriculum guided by modern thought and traditional values, and our inspiring extra-curricular program.

**Ibrahim Hasan Murad**  
President UMT/ILM Trust

## Director's Message

It is with great pleasure that the TKS family extends a warm welcome to you all. This prospectus is designed to give you an idea about what makes The Knowledge School Network, regardless of campus, such a vibrant place to learn. We strive to create an environment where we all give our best, in order to achieve the best possible academic standards. Our campuses provide a student experience incomparable in its opportunities for you to be immersed in meaningful learning. We have painstakingly created an environment nationwide that is designed to be enriching and inclusive, while also being challenging enough to cater to your individual and collective uplift. The host of curricular and extra-curricular activities on offer are designed to stimulate and excite you in ways that lead to your intellectual and moral maturation. Moreover, our campuses do not operate in a vacuum: we exist in a community and we provide ample opportunities for you to engage with the people around you. Our customised care will enable you to achieve your dreams regardless of starting points, background or interests. We are confident that our learning atmosphere, combined with our focus on achievement, arts and sports will ignite young minds, transforming them into well-groomed, responsible citizens of Pakistan.

**Mariam Nur Murad**

Director The Knowledge School and ILM Group of Colleges

## Group Profile

The Institute of Leadership and Management (ILM) Trust, founded in 1990, has become a distinctive player in the field of human development and education not only in Pakistan but also internationally. ILM Trust was established by leading educationists, professionals and industrialists with an aim to enhance organizational and individual effectiveness. In a span of only two decades, ILM Trust has expanded horizontally and vertically. Today, it owns a portfolio of businesses in real estate, construction, energy and banking, with education being the backbone.

Foresight, innovation, energy and competitive strategies have helped the Trust to take advantage of emerging opportunities. More importantly, the Trust is now reputed and experienced in building and sustaining strong and effective business partnerships based upon trust, co-determination and mutual benefit.

*Learning for Leadership*

**CMD**

Center for Management Development

## **University of Management and Technology (UMT)**

UMT, one of the premier higher education facilities in Pakistan is an urban, general university that is dedicated to excellence in teaching and research. UMT offers a wide range of doctoral, masters and bachelors degree programs in ten schools and three institutes – all functioning under the umbrella of UMT. All academic programs being offered by the University are recognized by the HEC and conform to international standards.

## **ILM Group of Colleges**

In 2008, ILM Trust launched another educational project, the ILM Group of Colleges, with a view to meet the academic needs of students and to build the nation. Ever since its inception, ILM Group of Colleges has successfully pioneered a network of colleges for boys and girls throughout the country. Like other projects, ILM Group of Colleges combines state-of-the-art educational facilities with premium faculty, which is reflected by their students' achievements. Alumni of the ILM Group of Colleges go on to leading institutes of commerce, business, medical and engineering sciences for further education.

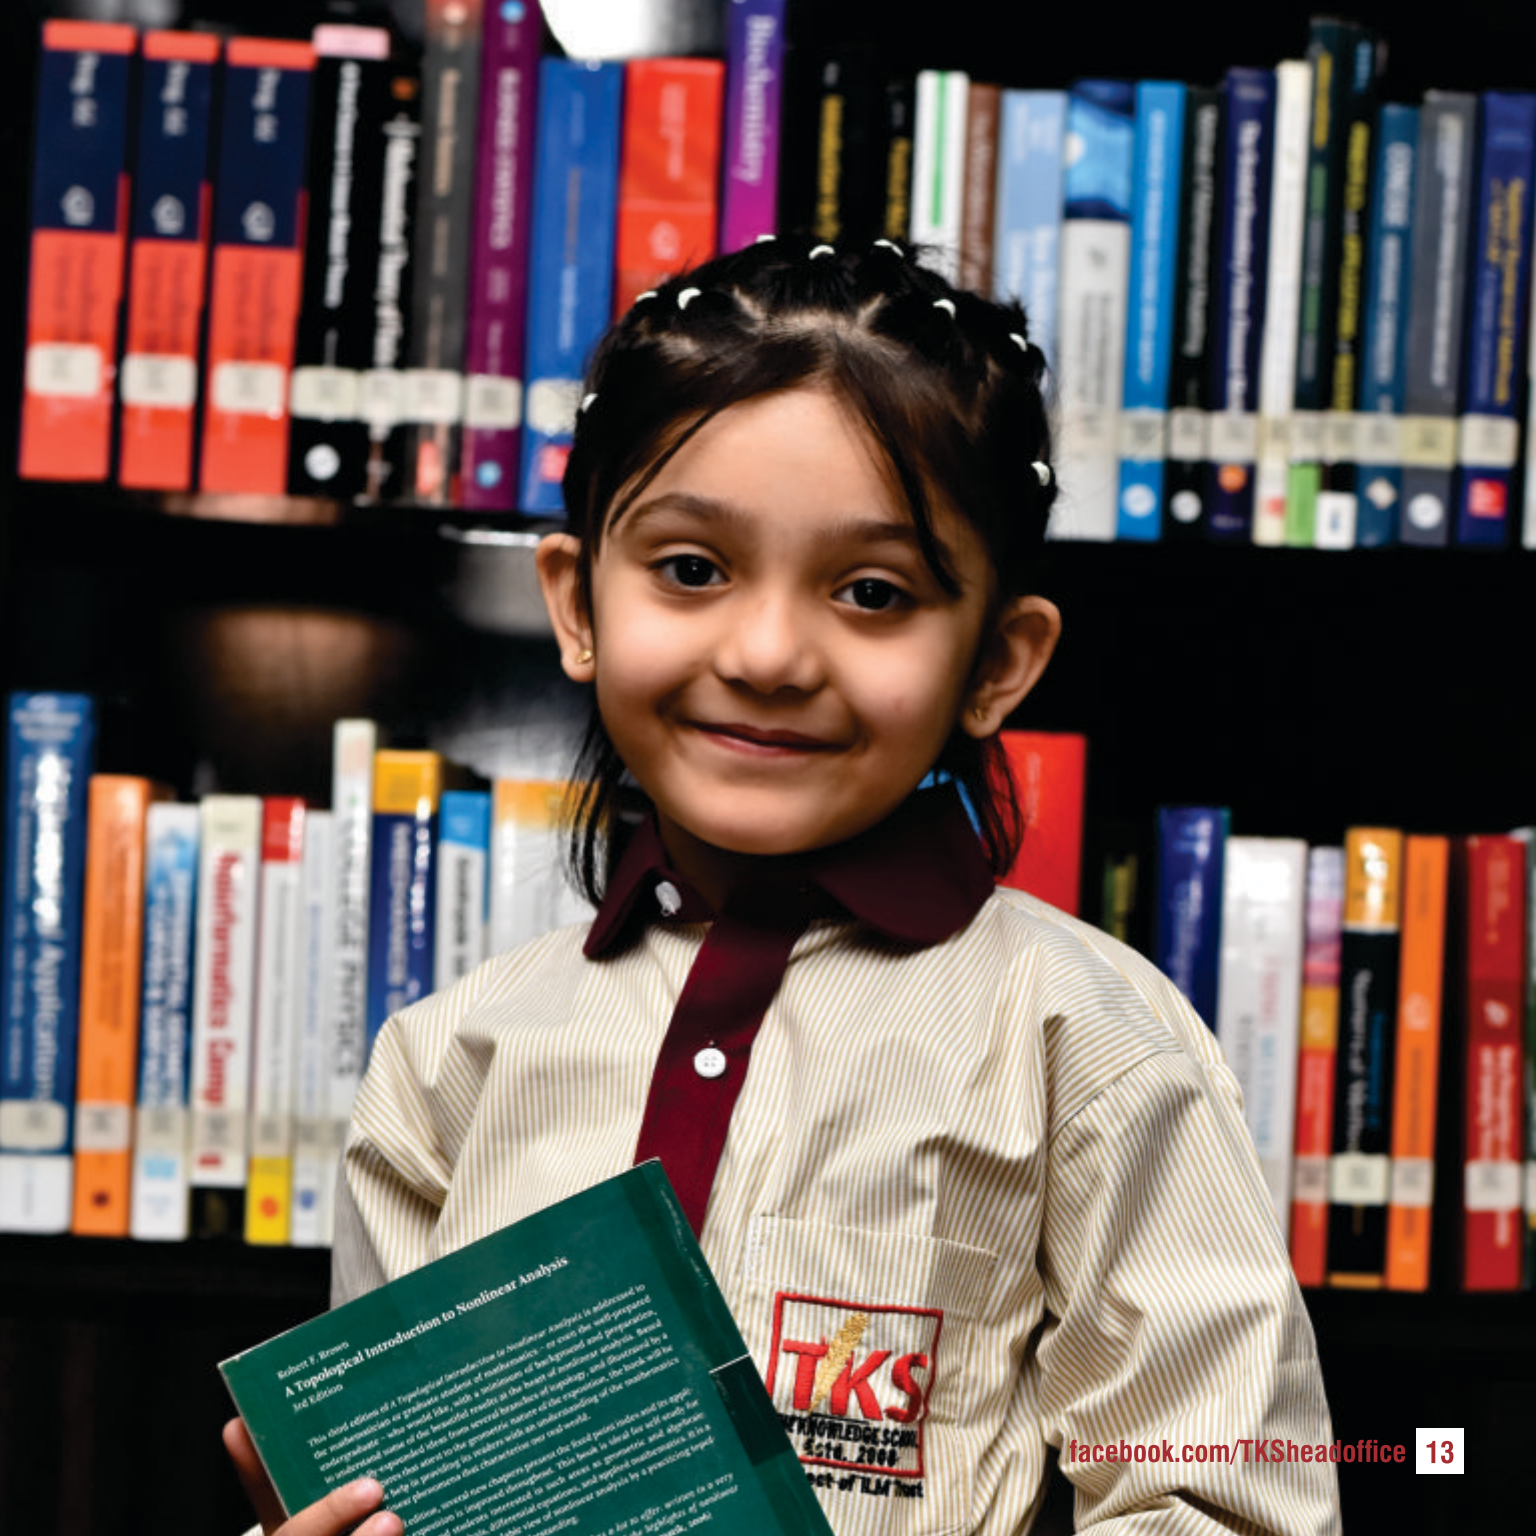

## The Knowledge School

The importance of childhood education is increasingly gaining prominence and being recognized by various governmental policies and valued by society at large. The formative years, that is, three years and over, are the most significant years in terms of character-building and inculcating a sound value system in the child. Certainly, the learning in these years lay the foundation for future academic success.

ILM Trust realized this and in 2008 launched a nationwide project of schools – The Knowledge School (TKS) based on a strategic partnership with enthusiastic individuals willing to invest and further the cause of education. In a short span of time, TKS has developed a sizable network of operative schools throughout Pakistan.

TKS is committed to lifting the standard of education and ingraining a sense of social responsibility in this generation of students for the future of the country. Looking towards that future, TKS intends to nurture young minds by creating educational opportunities where they would otherwise not exist.

Robert F. Brown  
**A Topological Introduction to Nonlinear Analysis**  
3rd Edition

This third edition of A Topological Introduction to Nonlinear Analysis is addressed to the mathematician or graduate student of mathematics - it covers the well-prepared undergraduate - who would like, with a minimum of background and preparation, to understand the nature of the beautiful results at the heart of nonlinear analysis. Based on material expanded from several branches of topology, and illustrated by a series of examples that stand to the fore with an understanding of the mathematics.

In addition, several new chapters present the broad picture and its application to the study of nonlinear analysis. This book is ideal for self-study for the mathematician or graduate student of mathematics, and applied mathematicians. It is a valuable reference work for the mathematician and applied mathematician.

## The Vision

Dedicated to continuing the tradition of academic excellence in an ever-changing digitized world, The Knowledge School (TKS) Network recognises the greater opportunity to leverage our collective efforts to address learning gaps and societal challenges. Moving forward, TKS network aims to build a learning ecosystem that is diverse, inclusive and challenges young inquisitive minds. In partnership with teachers, parents and communities, we will create innovative learning/understanding opportunities, both inside and outside the classroom that will shape TKS students to have relevant critical thinking skills, character and most importantly knowledge to society.

## The Mission

To enable our students to realize their potential through exceptional opportunities, within a nurturing community which equips them to flourish in life and to make a difference for good.

# Our Philosophy

TKS is dedicated and passionate about developing each child to become independent, creative, compassionate, self-disciplined life-long learners.

# TKS

## Committed to Student Success

### **Quality Education**

The Knowledge School serves as a center for knowledge development. Our core curriculum is designed to meet international teaching and learning standards and to help students develop superior scholastic aptitudes. TKS provides an environment for educational, social and emotional growth. The high quality of education at TKS not only prepares students to achieve the highest standard of academic excellence, but also makes them aware of social responsibilities to the community.

### **Critical Thinking**

Critical thinking and argumentative reasoning both in speech and writing is a crucial element of excellent education. Critical thinking lays the foundation for innovation. At TKS, we prepare students to think deeply and understand complex ideas with sound reasoning that helps them to progress in both academic and professional life.

### **Parent-Teacher Engagement**

TKS realizes that the manner in which schools communicate and interact with parents affects the extent and quality of parents' home involvement with their children's learning. To this end, TKS campuses view a education as a triangular relationship between the school, child and parents.

At TKS, parent-teacher meetings are held on a regular basis, whereby parents benefit from being involved in their children's education by getting ideas from school on how to help and support their children, and by learning more about the school's academic program and how it works. Most importantly, parents benefit by becoming more confident about the value of their involvement in school and develop a greater appreciation for the important role they play in their children's education.

### **Teachers' Professional Development**

At TKS, we realize that a teacher is the single most important resource during the course of education. For this purpose, a special teacher-training team is dedicated for the sole purpose of conducting regular training sessions with the teachers at TKS campuses nationwide. Our main aim is to encourage teachers to engage in participative teaching so that a confident child is nurtured. TKS ensures that its teachers are equipped with the latest, internationally applied learning and teaching methodologies.

## Pre-School

Pre-school is the most crucial phase for learning and development. Students need meticulous attention at this phase of learning. Pre-school at TKS consists of playgroup, nursery and prep grades. The focus of TKS is to provide a strong educational base for students at the pre-school level. Our teachers are trained by national and international instructors to provide a good learning experience to our students. Pre-school teachers are specially trained to provide a friendly environment to students and we are proud to say that they are well-trained and dedicated. At TKS, our aim is to become a second home for students where they develop both cognitive and physical aspects of learning.

## Junior School

The Junior School years are transitional and are of great developmental importance. Students experience significant changes in both their academic and personal lives, making it important to carefully handle their needs during these years. At

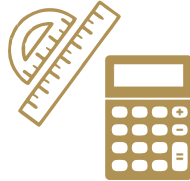

TKS, we ensure effective learning through our planned curriculum and project-based class activities. Our pedagogical approach ensures excellence and creativity in our students. We encourage a participatory and collaborative learning environment in all TKS campuses, thus pushing students to take on intellectual challenges.

## Senior School

The senior school involves an advanced level of learning and ranges from the sixth to tenth grade. Senior school years are a time when students develop complex ideas and concepts.

Effective teaching methodologies employed by our teachers help students achieve academic excellence, critically evaluate complicated, real-time problems and resolve them effectively.

We immerse our students in STEM (science, technology, engineering and mathematics) disciplines, so that they can emerge from school life as accomplished, well-rounded young adults. At TKS, we actively engage students in project-based, collaborative learning environments which incorporate alternative assessments in every class and promote the use of higher-level thinking, digital technologies and content-driven problem solving skills.

# TKS

More Than Just Teaching

## **Development of the Whole Child**

At TKS, we hold a strong belief in the value of learning outside the classroom. The development of the child as a whole is paramount and we recognise that different students are motivated by different experiences. As students progress through TKS, they are encouraged to take advantage of the many opportunities that are on offer from the arts, sports and co-curricular.

## **A Value-Driven Education**

We know that academic achievement is important because academic qualifications are the passport to accessing a better life and good university options, but we believe a value-driven education is equally vital. At TKS, we help students develop their character, values, talents and personal leadership to achieve their full potential as global citizens and leaders of the future. These words are not symbolic – we live and breathe them. Students learn to celebrate diversity with a spirit of understanding and tolerance, to develop a positive regard and awareness of other people and cultures.

## **Secure and Healthy Environment**

At TKS, we believe that students can only learn in a healthy and safe environment. We primarily focus on providing a safe learning community for both students and teachers. A culture of mutual respect and collaboration prevails at all TKS campuses. Any form of verbal, physical, or cyber abuse and bullying is highly prohibited. We believe that a healthy and secure learning environment boosts creativity, innovation and a caring

community and we promote these values within our system.

## **Outstanding Sports and Fitness Facilities**

TKS emphasizes physical education programs and outdoor activities. The intended purpose of these activities is to teach and endorse long-term physical and mental health. The schools offer a range of sports activities from competitive intramural events to interschool sports activities to meet the diverse needs of students.

## **Focus on Extra Curricular Activities**

Here, students are encouraged to engage in a reasoned debate, question assumptions and strengthen their own voices. We aim to achieve this goal by offering a wide range of extracurricular activities such as essay writing, debate competitions, art projects and general knowledge-based quizzes, among many others. These activities enhance student experience and help them to explore their interests.

## **Outdoor Education (School Field Trips)**

Our aim is to provide a balanced educational program promoting both theory and its practical implications. We organize various educational trips to give hands-on industry experience to our students. The outdoor educational programs boost our students' learning skills and develop a supportive learning community.

## Admission Procedure

- Step 1** Parents seeking admission for their children must fill the Registration Form for each child. They must also obtain a copy of the school prospectus from their relevant campus.
- Step 2** Appear on date of admission test and interview indicated on the Registration Slip. Admission is based on merit, availability of seats, and sibling reference.
- Step 3** Suitable candidates are issued Admission Forms. Once the admission is approved by the Principal, the necessary Fee Challan is issued.

Admission will be confirmed on deposit of the fee as well as the receipt of the following:

### **For Fresh Admissions**

Parents' / Guardian's CNIC Copy  
Birth Certificate of the Child  
Two 1"x1" size latest photographs of the student

### **For Migrating Students**

Parents' / Guardian's CNIC Copy  
Two 1"x1" size latest photographs of the student  
School Leaving Certificate  
Last Progress Report

## General Rules of Good Order and Discipline

The Knowledge School aims to provide quality education by inculcating sound moral and social values among the students. The school has the primary responsibility of facilitating an environment which is congenial to learning. In order to ensure that students do not deviate from their main objectives and transgress upon their disciplinary obligations, the following rules of good order and discipline are in force:

1. Students should be neatly dressed in school uniform and should have well-managed hair.
2. Students should maintain good personal hygiene and keep their fingernails trimmed and clean.
3. Students are not allowed to leave school premises without the permission of a relevant authority.
4. Leave application should be endorsed by parents and submitted in advance.
5. Cheating, stealing, scuffling with fellow students, telling lies and misbehaving are all breaches of discipline.
6. Students are not allowed to wear jewelry or bring large sums of money, or drugs, photographs, magazines, CDs, camera, radio set, cell phone, or weapons to school.
7. Writing letters to fellow students or receiving uncalled-for mails in the school is deemed objectionable.
8. Students should be respectful to the school staff and must communicate any concerns to the teachers or Principal.

## Role of Parents

Education of children is the joint responsibility of parents/guardians and the school. Considering the role of parents/guardians in this regard, the following guidelines are important to follow:

1. Parents are to provide a congenial atmosphere to their children/wards at home for their studies and ensure that they do their homework regularly.
2. The parents/guardians should keep in touch with the school, so as to keep abreast of the performance of their children/wards in academics and other activities.
3. They must attend parent-teacher meetings.
4. They are required to cooperate with the institution in matters regarding discipline, uniform, attendance, punctuality, and general behavior of their children.
5. They are to ensure that their children/wards fully abide by the school rules and regulations.
6. They must keep checking up on their children with respect to their performance in tests and examinations.
7. They are to abide by the policies and regulations of the institution with respect to educational methods, promotions/detentions and send-ups for the BISE examinations.
8. Parents/guardians are not to send their children/wards to school in case they are suffering from any contagious disease.
9. They are to make complaints, if any, directly to the Principal and not to the teacher concerned.
10. They are not to visit classrooms and academic blocks during school hours.
11. They are to read and sign any notice, rules and regulations documents and written warnings sent or intimated to them by the institution.
12. They are to ensure timely payment of school dues.

## Instructions

This registration form must be completed in all respects and returned to the school office along with copies of the child's last school report and birth certificate.

- Both Inter and Intra City Transfer facility is available within the school network.
- Each child will be registered for admission individually and separately.
- The school does not take any responsibility for postal delays or consequences thereof.
- The school reserves all rights of review and increase in the registration fee, tuition fee and all other fees, charges and deposits. Consent of parents is not necessary. However, prior notice will be served.
- Sibling discount is available as per rules.
- The school may shift its premises to another location without parents' prior consent. They will, however, be intimated in advance.
- The school has absolute discretion to regulate the curriculum, course books and other teaching materials in order to provide quality education.
- The school reserves the right to accept or refuse registration of a child without assigning any reason.
- Parents seeking admission of their ward(s) must fill in Registration Form (annexed in the prospectus) for each child.
